Areas, sq ft GIA	**sq ft**
Sports Club, all four levels (schedule, matches Knight Frank)	32,377

Pavilion first floor and roof terrace (schedule)	9,454

No split of the permanent buildings. The temporary pavilion, its link passage and its porch are cut off along their own thin-walled outline on the GIA plan and stay with the Club, so the hall's south-west corner stays in the demise and the Pavilion is let whole. Third Space get both existing entrances, the Sports Club's west door and the Pavilion's main door. The Squash Courts are a separate building and are excluded. Principal Plans to confirm the temporary pavilion area from the CAD before pricing.
