EXISTING CAR PARK

Existing kerb line to be moved back to allow new banking

Existing paving/footpath to be retained

Link to existing footpath

Connect to existing Manhole

New footpath to follow line of existing ground

Existing bin bay to be removed

Existing car park left as existing

Remove grass and replace with tarmac to create new space

Proposed Acodrain or similar approved

Connect back to existing Drain run, or to be confirmed

Two spaces removed

Car Park Space turned and one removed

Existing kerb line to be moved back to allow new banking

101.440m overall size

97.440m synthetic size

ALL WEATHER PITCH AVERAGE LEVEL 14.795

60.860m synthetic size

62.860m overall size

RE-MODELLED PLAYGROUND AREA

EXISTING TREE TO BE PROTECTED

ACCESS PATH

1.5m wide Access path

New footpath to follow line of existing ground

Link to existing Track via edging kerb

Footpath/track

Existing edging kerb to remain

Edging kerb connects to existing

Existing cor park ends here

Edging kerb

Edging kerb connects to existing

Existing edging kerb to remain

Existing car park left as existing

Edging kerb

Grass cutting storage

FOR SECTIONS AND ELEVATIONS TO ALL WEATHER PITCH, REFER TO DRAWING No. 2535/102

Existing ground level

Existing top soil to be stripped

Selected excavated material (not top soil) taken from cut area well compacted in 300mm layers

Grasshopper SD18L Synthetic turf 20mm

By Charles Lawrence

15mm europave shock pad

25mm open textured bitmac 10mm nom. size over 40mm open textured base (20mm nom. size)

250mm 6F 1 material

Typical Section Through All Weather Pitch Make-up and fill material (fill area)
Scale 1:20

FINISHED GROUND LEVEL

UNDERSIDE OF SUB-BASE (WHERE APPLICABLE).

UNLESS OTHERWISE STATED TRENCH BACKFILLED WITH 50mm REJECT STONE UP TO UNDERSIDE OF STRUCTURAL SUB BASE MATERIAL AS INDICATED OR 500mm BELOW FINISHED GROUND LEVEL. IN LANDSCAPED AREAS.

LAND DRAIN SURROUNDED WITH 20mm SINGLE SIZE GRANULAR MATERIAL AND WRAPPED IN A LAYER OF TERRAM TYPE 750 OR SIMILAR GEOTEXTILE MATERIAL WITH 200mmLAP

PP LAND DRAIN, TO DIAMETER SPECIFIED ON CONTRACT DRAWINGS.

LAND DRAIN TO BE LAID HOLES UP

Typical Land Drain detail

OVERRUN STRIP CONSTRUCTION

25mm open textured bitmac (6mm nom. aggregate)

40mm open textured base (20mm nom. aggregate)

Compacted 6F1 material

Fence

Timber kickboard

50x150mm P.G.G. kerb edging

Galvanised carpet trap

PITCH CONSTRUCTION

By Charles Lawrence

Grasshopper SD18L Synthetic turf, 20mm

15mm europave shock pad,

25mm open textured bitmac 10mm nom. size over 40mm open textured base (20mm nom. size)

250mm compacted 6F1 material

Terram 1000 geotextile material

Compact formation

Typical Section Through All Weather Pitch Make-up (cut area)
Scale 1:20

50x150 PCC concrete edging laid flat, backed and bedded with C20 concrete

Fence line (edge of pitch)

450 min

Pitch surface

Pitch make-up

200mm wide x 300mm deep gravel filled french drain with terram lining

Edge detail to All Weather Pitch
Scale 1:20

50x150 PCC concrete edging backed and bedded with C20 concrete

Fence line (edge of pitch)

Pitch surface

Pitch make-up

Banking

200mm wide x 300mm deep gravel filled french drain with terram lining

Edge detail with adjacent retaining log wall
Scale 1:20

50x150 PCC concrete edging backed and bedded with C20 concrete

Fence line (edge of pitch)

150mm dia. tube for fence post

Pitch surface

Pitch make-up

max. 200mm dia. log retaining post

1. 25mm Thick "Tarmac" Permeable Asphalt wearing course
2. 50mm thick "Tarmac" Permeable Asphalt binder course
3. 100mm thick "Tarmac" Permeable Asphalt base course
4. 100mm Sub-base D.O.T. Type 1 material to clause 803
5. 250mm thick capping layer – 6F1 material (75mm max. size)

NEW CAR PARK AREA MAKE-UP

Flush 50x150mm precast EF type edging bedded and haunched with ST2 concrete

75mm

200mm

1. 25mm Wearing course Close graded Bitumen Macadam (6mm nominal size)
2. 50mm base course Close graded Bitumen Macadam Aggregate size 20mm
3. 100mm Sub-Base D.O.T. Type 1 material to Clause 803
