BLOCK
This is one of our main logos. Use Nectar on top of a Bordeaux colour block.

COLOUR

Colour palette

The combination creates a balanced hierarchy:

BORDEAUX
Rich, confident and distinctive.
It provides the brand's authority and recognition.

NECTAR
Warm, approachable, and energetic.
It softens the formality of Bordeaux and adds a touch of personality.

STONE
Calm, neutral and grounding.
It gives the palette sophistication and prevents the warmer tones from feeling overpowering.

FEATHER
Muted, airy and delicate.
A light accent colour that brings a soft and approachable tone.

Set type styles to the following:
Kerning – Metrics
Letter spacing – -30

Our secondary typeface is Lato. It is used across all body copy when we have more information to communicate.

For the most part we use Lato Medium, occassionally highlighting or knocking back words or phrases with Lato Light.

The font combines a strong, serious structural backbone with warm, semi-rounded details. Used to give a neutral and legible feel in small paragraph sizes.

Set type styles to the following:

Invoice

The invoice template design has been intentionally kept simple to align with Xero's customisation capabilities and limitations.

Unlike other branded documents, Xero does not support page background colours and there are restrictions on the positioning and layout of elements such as the company logo.

The proposed design therefore focuses on maintaining a professional, on-brand appearance within the parameters of the platform.
