BGP.UK.COM AGAINST THE WIREFRAMES

Every page of the live site set beside the December wireframe it was built from, after the layouts were rebuilt to the drawings on 16 October.

PREPARED FOR EMMY AND CHARLOTTE · 16 OCTOBER 2026 · CAPTURES TAKEN FROM WWW.BGP.UK.COM AFTER THE REBUILD

Earlier this week the site had drifted from the wireframes. Intros had been centred, statements had moved off the photos, the grey bands had gone and the headings had lost their rules. Woody caught it from the side-by-sides. The layouts have now been rebuilt page by page to the slides, and each page below is shown beside its drawing so the match can be judged by eye rather than taken on trust.

Every section page now runs the same sequence: statement over the photo, intro copy, the page's own block, client quote, key contacts on a grey band, case study on a grey band. Where the content for a slot has not arrived, the slot shows a dashed placeholder marked with what is owed, rather than the section quietly disappearing. That is why some pages below show empty quote boxes and crossed photo frames: they are built and waiting.

Type and colour follow the August brand guidelines rather than the wireframe placeholders. The wireframes were typeset in a stand-in serif, so the lettering looks different even where the layout is the same.

REBUILT TO THE SLIDES	Home, Leasing, Listing page, Estate and sector pages, Investment, Investment case study, Brand Representation, Lease Advisory, Consultancy, News, Article, Team hero and nav.
KEPT ON PURPOSE	• "We are bgp" intro and the Landsec testimonial on the home page (approved copy). • "Where we act" sector tiles on Leasing (route to the sector pages). • Page numbers rather than "More listings" on Leasing (Woody, 15 October). • One template for the three service pages, including "What we offer" on all three (Harry, 12 October) and a hero photo on Brand Representation. • One page per sector rather than per estate.

	• Team as a grouped list rather than an A to Z grid (Woody and Charlotte).
PLACEHOLDERS SHOWING	• Client quotes and their photos on Investment, Brand Representation, Lease Advisory, Consultancy and every case study page. • Case study on The City and High Streets. • Location map on the two Lease Advisory case studies without an address. • Frankie Shop, Davies Street photo.
STILL TO SUPPLY	• Team group photo and Harriette's headshot. • Three Lease Advisory case study summaries (one repeated sentence today). • Nearest stations and transport, once the leasing tracker has the field. • Bios for everyone.

WHAT WOULD FILL THE PLACEHOLDERS

1. **Quotes.** One client quote with a photo for each of Investment, Brand Representation, Lease Advisory and Consultancy (Cat Jenkins), and one per case study where there is a willing client.
2. **Photos.** A team group shot, Harriette's headshot, the Frankie Shop store.

3. **Words.** Three Lease Advisory case study summaries, a case study each for The City and High Streets, bios for the team.
4. **Data.** A nearest-station field on the leasing tracker.

Send any of these to Woody and they replace the placeholder the same day. None of it needs design or build work.
