Vue Entertainment Limited

Strategic Report

For the year ended 30 November 2025

The Directors present their Strategic Report of Vue Entertainment Limited ("the Company") for the year ended 30 November 2025. The comparative is for the year ended 30 November 2024.

The immediate parent undertaking of the Company is Vue Entertainment Holdings (UK) Limited and the Company's ultimate controlling parent is Vue International Holdings Limited, there is no single controlling party of Vue International Holdings Limited.

Vue Entertainment International Limited, a company incorporated in Jersey, is the parent undertaking of the largest group to consolidate the results of the Company. Vue Entertainment International Limited together with its subsidiaries forms "the Group".

Principal Activities

The principal activity of the Company is the operation of state-of-the-art multiplex cinemas.

Results in the year

Company operating profit for the financial year was £45,360k (2024: £46,178k).

The retained profit for the Company after taxation amounted to £39,791k (2024: £25,324k).

The Company had total assets for the year of £950,598k (2024: £916,188k). Total liabilities for the Company were £551,618k (2024: £556,999k) resulting in a net assets position of £398,980k (2024: £359,189k).

The net impairment credit for the year is £113k (FY25 charge of £2,984k less prior year impairment reversal £3,097k) in respect of intangible assets, property, plant and equipment and right-of-use assets (2024: credit £3,456k).

Key Performance Indicators

The Directors of the Group manage the Group's operations on a consolidated basis. For this reason, the Company's Directors believe that analysis using key performance indicators for the Company is not necessary or appropriate for an understanding of the development, performance and position of the Company. The development, performance and position of the Group, which includes the Company, are discussed in the Strategic Report of Vue Entertainment International Limited see note 25 for details of where these financial statements can be obtained.

Review Of The Business

In the Strategic Report and the accompanying Directors' Report, the directors present further information on the principal activities of the business, an analysis of the development and performance of the business during the year and position as at 30 November 2025 and a description of the principal risks and uncertainties facing the Group.

The Strategic Report, and Directors' Report contain certain forward looking statements with respect to the financial condition, results, operations and business of the Group. By their nature, these statements and forecasts involve risk and uncertainty because they relate to events and depend on circumstances that may or may not occur in the future.

There are a number of factors that could cause actual results or developments to differ materially from those expressed or implied in forward looking statements and forecasts as they can be affected by a wide range of variables not wholly within the Group's control.

The forward looking statements reflect the knowledge and information available at the date of approval of the Strategic Report, Directors' Report and financial statements. Nothing in the Strategic Report, Directors' Report and financial statements should be construed as a profit forecast.

Future Outlook

FY26 is expected to deliver a strong and well-balanced year, supported by a consistent pipeline of major franchise releases and broad family appeal across all quarters. Q1 is driven by key titles such as Wicked: For Good, Avatar: Fire and Ash, Zootropolis 2, The Housemaid, Hamnet and Wuthering Heights. Q2 benefits from Easter uplift and sequels including The Super Mario Galaxy Movie, The Devil Wears Prada 2, The Mandalorian & Grogu as well as Michael. Q3 represents the peak summer blockbuster period, led by tentpoles including Toy Story 5, The Odyssey, Spider-Man: Brand New Day, Minions 3 and Moana. Q4 is expected to provide a strong year-end finish with releases such as The Hunger Games: Sunrise on the Reaping, Digger, Pressure, Verity, Sense and Sensibility and The Cat in the Hat. Overall, the depth of the FY26 slate suggests continued normalisation of admissions and a positive outlook for full-year box office performance. December 2026 is expected to feature a strong holiday slate, combining major franchise blockbusters and family animation, which should support a robust start to FY27. Key releases include Avengers: Doomsday, Jumanji 3, Dune: Part Three, Ice Age: Boiling Point, and The Angry Birds Movie 3.

Section 172 Directors Compliance

The Directors of the Company continue to work to promote the success of the Company for the benefit of the members as a whole having regard to the interests of stakeholders, including customers, employees, suppliers, and the wider community in which it operates, when considering:

- the consequences of decisions for the long term
- the interests of employees
- the development of business relationships
- impact on the community and environment
- maintaining a reputation for having high standards of business
- the need to act fairly as between members of the Group

Consequences of any decision in the long term

The Directors understand the business and the evolving environment in which the Company operates. All decisions are taken with the aim of improving the success of the Company in the long term.

Trading performance in 2025

FY25 saw a 9.2% improvement in revenue of £313m (2024: £286.7m), with operating profit of £45.3m (2024: £46.2m).

The overall box office strength in 2025 has benefited from a stable release pipeline, after pandemic-era disruptions and strike delays, helping lift revenues and stabilise attendance.

Interests of employees

The Directors' actions with regard to our people, are covered in the Directors' Report.

Customers

The Company continues to offer and operate a high quality multiplex estate and customer experience. The Company continues to develop its customer offering through the introduction of technologies and full recliner leather seating. In addition, the Company adopts agile pricing strategies that offer customers great value whilst optimising admissions and profit.

Landlords

The Company, via the Group, continues to proactively review and manage lease contracts to ensure rent, length of lease and space rented are all optimally configured. During the year, several leases were re-geared to deliver additional value for the Company, via the Group, including securing Landlord funding to support major site refurbishments.

Impact of the Company's operations on the community and the environment

Social and community issues

As a cinema operator, responsibility to the community is very important to the Company. A variety of special screenings are run to facilitate accessibility to the diverse communities within which we operate including autism friendly, open captioned, audio description and family friendly morning screenings. The Company is part of the national Cinema Exhibitors Association card scheme which provides free tickets to carers of disabled cinema guests and is also a proud supporter of Medicinema, a charity that provides relief to hospital patients through the power of film.

It is important to the Company, through its Group-sponsored activities, to represent the diverse nature of the communities in which we operate and we work hard to attract people to fill vacancies from those communities.

Environmental matters

The Company recognises the impact of its operations on the environment. Company consumption is measured (see Streamlined Energy and Carbon Reporting) and the Company continues to seek energy consumption reductions through initiatives such as the introduction of more energy efficient projection, lighting, and HVAC to minimise adverse impact on the environment from its activities, alongside delivery of its commercial priorities. Working with suppliers and customers, the Company continues work on diverting waste from landfill to be recycled.

Digital screens and improved facilities for paperless ticketing promote a reduction in the use of paper resources.

Maintaining a reputation for high standards of business

Group Internal Audit provides the Audit, Risk and Governance Committee and Company management with independent and objective assurance on the adequacy and effectiveness of governance, risk management, and internal controls through delivery of risk-based internal audit reviews and a cinema compliance audit programme. This includes assessing the design and effectiveness of financial and operational controls, standards and procedures, and compliance with laws, regulations and associated Group policies such as Anti-Bribery and Corruption, Health and Safety and Whistle-Blowing.

Group Internal Audit reports the results of Internal Audit activities, together with key themes and trends, to the Audit, Risk and Governance Committee and Company management.

The scope of Internal Audit includes, but is not limited to assessing and reporting (to the Audit, Risk and Governance Committee and to Company management as appropriate) on:

- the adequacy and effectiveness of financial and operational controls;
- compliance with laws, regulations, and contracts;
- opportunities for improving efficiency and reducing costs;
- Group wide policies, standards and procedures including their use and appropriateness;
- the systems established to ensure compliance with those policies, plans, procedures, laws, and regulations which could have a significant impact on the organisation;
- the integrity of processes and systems, including those under development, to ensure that controls offer adequate protection against error, fraud and loss;
- designated advisory projects for management, if they do not threaten the actual or perceived independence of Internal Audit from management; and
- cases of suspected financial crime, employee fraud, and malpractice.

The need to act fairly as between members of the Company

The Directors value contact with the Group's shareholders and loan investors. The board is kept up to date at its regular meetings and receives reports on the operational performance of the Group, of which the Company is a part.

In addition, presentations are given to loan investors and ratings agencies following each quarter close and separate announcements of all material events are made as necessary ensuring that regular contact is maintained.

Principal Risks and Uncertainties

The Directors of the Group manage the Group's risk on a consolidated basis, rather than at an individual entity level. The Board has overall responsibility for risk management and internal controls and for reviewing their effectiveness. The Audit Committee of Vue International Holdings Limited reviews the adequacy and effectiveness of the risk management process, approves internal and external audit plans and monitors risk reporting.

The Group's internal control environment is designed to facilitate the identification, assessment and management of risk, the protection of shareholders' investments and the protection of the Group's assets.

The Group has implemented a Group Risk Management Policy to manage the challenges that present threats or opportunities to the business and, as part of good business practice, how risks are identified, assessed, and managed across the Group.

The annual risk management process concludes with the Board's assessment of the Group's Principal Risks and Uncertainties disclosure, including those that would threaten its business model, future performance, solvency or liquidity, and the completion of an annual internal control certification.

The principal risks and uncertainties of the Group, which include those of the Company are set out below and are also discussed in the Strategic Report of the consolidated financial statements of Vue Entertainment International Limited:

Film production and quality risk

The number and quality of the films released in any reporting period can significantly impact admissions, revenue, and profitability. The Company has an inherent reliance on major US studios and local film industries to develop successful films and franchises that drive recurring revenue. The resolution of the SAG-AFTRA strikes in FY24 has led to a strengthened film slate in FY25.

To mitigate against film production and quality risk, the Company maintains strong relationships with studios and local distributors, allowing early insight into upcoming film releases. The Group's presence in European markets lends it an increased exposure to local, non-Hollywood film demand, creating a hedge against fluctuations during phases where Hollywood content may not be as appealing to cinema audiences. Utilising these relationships and market presence, the Company has continued to develop its dedicated distribution arm, Vue Lumiere, that aims to release 10-12 high quality British independent and foreign language films annually.

Although the Company remains vigilant to potential future disruptions that could impact content availability, FY26 and FY27 film slates are reflecting a strong breadth of releases across studios. The Company continues to monitor developments, such as the anticipated acquisition of Warner Bros. by Paramount and the longer-term effect of this. However, continued significant theatrical investment by Apple and Amazon, providing diversification from traditional studios, provides meaningful offset to any consolidation concerns.

Competition risk

The Company operates in a competitive marketplace, with other cinema operators present within the catchment areas of many of its sites. However, during FY25, competitor expansion remained limited and a small number of competitor closures were announced, maintaining a favourable competition landscape for the Company.

To mitigate this risk, local operational teams focus on continuous service improvement. The Company invests in maintaining and upgrading its cinemas, offering state-of-the-art, high-quality multiplexes and enhanced digital platforms. This ensures a seamless customer experience from ticket booking to screening.

While out-of-home entertainment continues to play an important part in people's lives, independent research shows year-on-year growth in cinema attendance, and the Company continues to monitor market trends and enhance its brand accordingly.

Supplier risk

The Company's key suppliers are film distributors. These relationships are managed by the territory screen content teams who report to the Chief Commercial Officer to ensure a consistent approach to strategy and delivery. Additionally, the Company relies on suppliers for hardware, software, outsourced services, and branded food, drink and confectionery. The Company prioritises maintaining strong partnerships with key suppliers, and has contingency plans in place with food, drink, and confectionery providers to mitigate against any potential supply chain disruptions. The Company has also continued to strengthen its procurement capability for non-film purchasing activity and has no significant reliance on any one supplier.

Health and safety risk

The Company places paramount importance on ensuring its cinemas are physically safe environments and that its food and beverage products are maintained and served in accordance with food safety regulations. Compliance monitoring includes frequent unannounced operational audits and health and safety assessments. Health and safety matters are monitored at a Group level and discussed at each Audit, Risk and Governance Committee meeting held during the year, with escalation protocols in place for significant findings.

Information security and data protection risk

The possibility of critical system interruptions, data breaches (cyber or otherwise) and cyber-attacks that undermine security measures designed to preserve the confidentiality, integrity and availability of business systems, applications and data (including movie content) resulting in unauthorised access or the loss or disclosure of this information could significantly impact the Company's performance by potentially exposing it to a reduction in service availability for customers, potentially significant regulatory penalties, claims / fines and ultimately reputational damage.

To mitigate these risks the Company continuously reviews the security of its data, systems, and services with ongoing assessments of Group-wide data privacy requirements.

In 2025, a centrally co-ordinated, group-wide, data privacy program was completed, significantly increasing the maturity of our data protection polices and processes.

Cybersecurity threats to the Company are assessed on a continuous basis so that associated risks to the business can be evaluated accurately, allowing it to take appropriate and proactive measures.

Investment has continued in security engineering to ensure that the Company's digital systems and services are built with security by design from the start, enhancing our resilience to modern day cyber challenges. We also continue to invest and improve all aspects of information security across the landscape, including updating infrastructure as well as network and access controls.

Systems risk

The Company relies on a suite of systems and networks to support its day-to-day operations. These systems continue to operate effectively; however, service interruptions or prolonged outages could temporarily impact business performance.

To manage this risk, the Company maintains a proactive approach to monitoring and enhancing its IT infrastructure. A structured risk-based framework is in place to assess and address key areas requiring investment, ensuring operational resilience. The Company also benefits from a dedicated team of internal and external IT specialists, providing ongoing support and oversight.

As part of its continuous improvement strategy, the Company has identified the need to modernise its ERP systems, where suppliers have confirmed that formal support will cease over the coming 2-3 years without version and cloud upgrades. A comprehensive assessment has been undertaken, and the development of a robust business case and implementation plans are progressing to ensure effective project delivery. The Company expects to progress this modernisation programme during FY26. In the interim, the Company is confident that existing risk mitigations, including robust system monitoring, security measures, and contingency planning, will ensure operational continuity.

Climate Related risk

Changes to the climate, particularly in the medium to long term, have the potential to impact our business operations and supply chain.

To mitigate these potential impacts, the Company continues to assess the business risks and opportunities from future climate scenarios and the medium to long term transition to a low carbon economy alongside continuing to reduce the operational energy consumption from our operations.

Continuity risk

Significant unplanned events, such as geopolitical conflicts, systemic failures, or material litigation, could disrupt trading and access to financing, leading to financial loss, reputational damage, or business closure.

The Company continues to prioritise the enhancement of contingency planning, operational resilience, and liquidity strategies to minimise disruptions, safeguard operations, and maintain financial stability. While the Company does not operate cinemas in Russia, Ukraine, or the Middle East, it has been affected in recent years by rising energy prices and global food supply issues.

To mitigate these risks, the Company continuously reviews energy suppliers and tariffs, and works to minimise supply chain delays. Standard operating procedures safeguard cinemas, staff, visitors and customers, and management review these procedures periodically.

In the event of any unplanned or unforeseen events, senior management is convened to manage the response and any associated risk to the business.

People risk

While staffing levels have continued to stabilise through FY25, challenges remain in urban and highly competitive markets. To mitigate this, the Group's HR function continually reviews and optimises organisational structures, talent development, recruitment and succession planning. The Company is an equal opportunity employer and is compliant with relevant employment laws. Anti-discrimination policies and processes are embedded across the business.

Financial and liquidity risk management

The Directors of the Group manage the Group's operations on a consolidated basis. The Company's operations expose it to a variety of financial risks and the Company has mechanisms in place that seek to limit the impact of adverse effects of these risks on the financial performance of the Company.

The review of financial and liquidity risk which includes the Company, are set out below:

Inflation risk

Continued pressure from inflation rates has increased underlying operating costs and influences the pricing strategy of the Company.

This is monitored very closely and strategic initiatives have been put in place to mitigate against the impact of rising costs including dynamic pricing models, driving efficiencies in energy usage, optimisation of service hours, supply contract negotiations and technology driven retail and operating solution trials.

This report was approved by the board and signed on its behalf by:

N. Shergill

Narinder Shergill
Director

Vue Entertainment Limited

Corporate Governance

For the year ended 30 November 2025

The governance of the Company during the financial year operated in accordance with the governance structures established by the Group's ultimate parent company, Vue International Holdings Limited, and it is this overall governance structure which is described in this report. The Company is committed to maintaining business integrity, high ethical values, its corporate responsibility and professionalism. This section of the report outlines the approach adopted by the Company via the Group having consideration of and applying certain principals in the Code to the extent considered appropriate by the directors given the context of being a private company.

Board Changes

On 28 February 2025, Alison Cornwell resigned as Chief Financial Officer and on 16 February 2026 the Chief Operating Officer, Mattew Eyre, resigned as a director of the Company. James McArthur was appointed as Chief Financial Officer on 13 October 2025 and was appointed as a director of the Company on 18 November 2025. Geoffrey Moore, the Chief Operating and Investment Officer, was appointed as a director of the Company on 23 February 2026.

Board Leadership and Group Purpose

The Role of the Board

The Board is responsible to the Group's shareholders, loan investors, and wider stakeholders for the long-term sustainable success of the Group. It provides strategic direction, oversight, and accountability, ensuring effective risk management, strong internal controls, and responsible governance.

The Board's role and responsibilities are clearly defined, with the executive management team responsible for day-to-day operations. In addition to the main Group Board, there are Territory Boards, comprising of Group Executives and local Executive teams, that meet regularly to ensure alignment with the Group's strategic priorities and governance standards.

Other core Board activities included, but were not limited to the following:

- Establishing and monitoring the effectiveness of the company's internal control and risk management framework, with a clear accountability structure to assess its adequacy and effectiveness;
- Setting the levels of delegated authority, whilst retaining overall responsibility for governance;
- Ensuring that executive remuneration policies align with the Company's long-term strategy and sustainable performance; and
- Enhancing transparency in audit and assurance processes to uphold financial integrity and stakeholder confidence.

Purpose, Values and Strategy

The Company's vision is simple – to be the best in big-screen entertainment. A key factor in achieving this vision is ensuring that strong governance and a well-embedded corporate culture support strategic objectives and long-term sustainability.

To ensure that the Company's purpose, values, and strategy remain aligned with its corporate culture and stakeholder expectations, Group HR conducts regular reviews to identify opportunities for further development and alignment.

Corporate Governance

For the year ended 30 November 2025

Resources, Controls and Risk Management

The Board, supported by the Audit, Risk and Governance Committee and senior management, has overall responsibility for establishing, monitoring, and maintaining an effective risk management and internal control framework. During the year, the Board directly, and through delegated authority to senior management and the Audit, Risk and Governance Committee, oversaw and reviewed the effectiveness of the risk management and internal control approach.

The Company has implemented the Group's Risk Management Policy ensures that risks are effectively identified, assessed, and managed across the business. The key principles guiding the Group's approach to risk management include:

- Integrating risk management into daily business operations;
- Encouraging all colleagues to actively engage in risk management within their own areas of responsibility;
- assigning primary responsibility for risk assessment and management to the respective territory or function(s) conducting the business;
- ensuring timely and accurate escalation of risk information to provide full visibility of key risks, enabling informed decision making at all levels;
- Maintaining a risk management framework and assessment process aligned with the business strategy, supported by an appropriate organisational structure; and
- Continually assessing and improving the effectiveness of the risk management framework.

Group Internal Audit provides independent assurance, supporting the Audit, Risk and Governance Committee and the Board. It applies a systematic and disciplined approach to evaluating and enhancing corporate governance, risk management, and internal controls. Internal Audit also facilitates risk workshops with Head Office and territory management teams, documenting identified risks within risk maps and registers using Jira (task management software). The software captures key risks, associated controls, and action plans to mitigate those risks.

The Board confirms that the Group's risk management and internal control systems have remained in place throughout the year, undergoing regular review to ensure robustness and alignment with corporate governance and regulatory expectations. Additionally, the Group Head of Internal Audit presents key risks, control findings and mitigation plans, to the Audit, Risk and Governance Committee at least annually.

Stakeholder Engagement

The Board met regularly and received reports on the Company's operational performance. Recognising the importance of stakeholder governance, the Board and Executive Directors remain committed to maintaining effective engagement with shareholders, loan investors, employees, and other wider stakeholders, ensuring a mutual understanding of objectives and emerging risks.

Executive Directors regularly engaged with loan investors and ratings agencies following each quarter-end close and separate announcements were made for all material events in line with best practices for transparency.

The Company via the Group continues to promote long-term success for the benefit of all stakeholders, considering the interests of customers, employees, suppliers, and the wider community.

The Board also supported initiatives to strengthen the Company's digital and information technology offerings, optimise pricing, and continually improve the customer experience. This included further investment in state-of-the-art multiplex refurbishments, customer engagement initiatives and cinema technology upgrades.

Corporate Governance

For the year ended 30 November 2025

Workforce Policies and Practices

The Company via the Group maintains workforce policies and practices that reflect its values and support its long-term sustainable success.

Key workforce policies and commitments include:

- **Code of Conduct**: all new employees receive a copy of the Group's Code of Conduct, which outlines ethical and moral expectations. Group HR periodically reviews and updates this document to ensure alignment with the latest legislation and governance best practice.
- **Modern Slavery Act**: the Group's Modern Slavery and Human Trafficking Statement is published on the Vue International website.
- **Anti-Bribery and Corruption**: the Group's Anti-Bribery and Corruption Policy ensures compliance with the UK Bribery Act 2010 and best practices to prevent bribery and corruption.
- **Whistle-blowing**: the Company promotes a culture of integrity and transparency, encouraging employees to raise concerns without fear of reprisal. The whistle-blowing helpline and email inbox are actively monitored by the General Counsel and Group Head of Internal Audit, with regular reporting to the Audit, Risk and Governance Committee and Board to ensure independent review and appropriate action.
- **Employee Assistance Programme**: a dedicated Employee Assistance Programme is available to support employees' mental health, personal well-being and professional challenges through counselling and well-being resources.
- **Diversity, Equity and Inclusion**: the Company remains committed to maintaining an inclusive workforce, recruiting and promoting employees based on qualifications, skills, and performance, and ensuring compliance with equity legislation.
- **Accessibility and Inclusion**: the Company continues to ensure that its cinemas are accessible to all, offering features such as audio-described and subtitled performances and providing free entry for carers accompanying customers with disabilities.

Division of responsibilities

The Role of Chair

The Chair leads the Board and was responsible for its overall effectiveness in directing the Group of which the Company is part. In addition, the Chair facilitated constructive Board relations within the Board and the effective contribution of all non-executive directors, and ensured that directors received accurate, timely and clear information. The Chair has never served as the Group's Chief Executive.

Board balance and Division of Responsibilities

Information about the Board members is set out in the Annual Report for Vue Entertainment International Limited. At the balance sheet date, the Board comprised three experienced executive directors (the Group CEO, CFO and COO) and four non-executive directors. The Board collectively brings extensive knowledge and expertise, updating their skills as required to effectively fulfil their roles.

The Role of the Non-Executive Directors

Non-executive directors had sufficient time to meet their Board responsibilities. They provided constructive challenge, strategic guidance, offer specialist advice and held management to account.

Policies, Processes, Information, Time and Resources

The Chair, in collaboration with the Group Company Secretary, Group CEO and other Board members, set Board meeting agendas, fostering open and constructive debate. The Board is provided with the necessary policies, processes, information, time and resources needed to operate effectively.

Standing agenda items included:

- Reports from senior management on strategic and business developments, operational updates and key actions since the previous meeting;
- Financial reports from the CFO covering liquidity management, key financial highlights, budgets and forecasts; and
- Capital investment proposals requiring Board approval.

Corporate Governance

For the year ended 30 November 2025

Composition, Succession and Evaluation

Board Appointments, Succession Planning and Diversity

A shareholder agreement governs the Company via the Group and states those matters that require Board approval, including Board appointments. Senior nominations are discussed and agreed by members of the Remuneration Committee.

The Board, supported by Group HR, develop succession plans based on objective criteria, promoting diversity of gender, social and ethnic backgrounds, cognitive abilities, and personal strengths.

These financial statements provide details on Board members skills, expertise, and experience. The Board's collective capabilities, particularly in entertainment, hospitality, film, corporate finance, governance, and risk management contribute significantly to strategic oversight and commercial decision-making.

Board Evaluation

The Board considers its size and composition to be appropriate, ensuring a balance of experience and skills among its members.

Audit, Risk and Internal Control

The Company's internal control environment supports risk identification, assessment and mitigation while safeguarding shareholder investments and assets. The Board delegates internal control oversight to the Audit, Risk and Governance Committee, whose members possess relevant financial and sector experience.

The Audit, Risk and Governance Committee's primary responsibilities include:

- Reviewing Health and Safety matters, including compliance, Health and Safety related risk management effectiveness, incident trends and regulatory updates;
- Ensuring the integrity of the financial statements and financial performance reporting;
- Reviewing the effectiveness of internal financial controls and risk management systems;
- Assessing the effectiveness of the Internal Audit function;
- Evaluating the independence and objectivity of the external auditor and the audit process, taking into consideration relevant professional and regulatory requirements;
- Recommending external auditor appointments, re-appointments and removals; and
- Reporting to the Board on its oversight activities.

Corporate Governance

For the year ended 30 November 2025

Internal and External Auditor Independence and Financial Integrity

The Audit, Risk and Governance Committee convened five times in FY25. The members of the Audit, Risk and Governance Committee, who were also directors of Vue International Holdings Limited were non-executive directors who represent a simple majority with the CEO, CFO and Chief Operating and Investment Officer also in attendance.

The three non-executives are not directors of Vue Entertainment International Limited but exercise group-wide responsibility as directors of the ultimate parent (Vue International Holdings Limited) from where governance is exercised.

The Audit, Risk and Governance Committee ensures the integrity of the Group's financial statements, reviewing and challenging the following:

- The consistency of, and any changes to, significant accounting policies;
- Significant financial reporting issues and resolutions;
- Key estimates and judgements;
- Disclosure clarity and completeness;
- Going concern assumptions and supporting evidence; and
- Material financial and governance disclosures.

With input from Group Internal Audit, Group Financial Control, Group Information Security, Group Operations and other key functional management, the Audit, Risk and Governance Committee also reviewed the adequacy and effectiveness of internal controls and risk management systems.

The Audit, Risk and Governance Committee oversees the Group Internal Audit function, ensuring it has sufficient resources and access to information.

During the year, the Audit, Risk and Governance Committee approved the Group Internal Audit plan and received reports on Group Internal Audit activities.

The Audit, Risk and Governance Committee evaluates the external auditor relationship, agreeing on terms of engagement and fees for audit services. Additionally, it reviews audit outcomes, including management letters, management's responses, and representation letters before finalisation.

Principal Risks, Risk Management, Internal Control

Risk management is a continuous process encompassing risk identification, assessment, mitigation, and consideration of residual risks post-control implementation. The execution of the Group's strategy and day-to-day management are subject to various risks. Understanding and managing these risks enhances decision making, supports delivery of objectives, and ensures business obligations are met.

The Company policy set by Group towards managing risk is as follows:

- Integrating risk management into daily business operations;
- Ensuring all colleagues engage in risk management within their areas of responsibility;
- Assessing and managing risk primarily at the Territory/ function level where they arise;
- Providing timely, accurate, and comprehensive risk information to support decision making at all levels;
- Maintaining a risk management framework aligned with business strategy, supported by an appropriate organisational structure; and
- Conducting on-going assessments of the framework's effectiveness to drive continuous improvement.

Management actively considers risks within day-to-day activities, ensuring appropriate processes are in place to monitor and mitigate them. The Company follows guiding principles to embed risk management at all levels:

- Risk management follows a delegated authority model, with significant risks escalated to the Audit, Risk and Governance Committee and the Board;
- Business-as-usual risks are primarily managed at a Territory and functional level;
- Confidence in the effectiveness of the framework is essential for corporate governance best practices;
- Management support and enforcement are critical to success;
- Key risks are continuously monitored and, where possible, mitigated to an acceptable level; and
- Risk management processes remain dynamic to accommodate evolving business conditions.

The risk management structure ensures consideration from both 'top-down' and 'bottom-up' perspectives. In addition to mitigating Principal Risks and Uncertainties, the Company via the Group maintains territory-level risk maps and operational risk registers. Internal Audit facilitates the risk assessment process, which includes:

- Risk identification, assessment of inherent risk impact and likelihood;
- Identification of key controls;
- Assessment of residual risk impact and likelihood; and
- Development and implementation of actions.

Group Internal Audit aligns its plan with identified key risks, conducting risk-based audits, financial and IT controls testing and management-requested reviews.

The Audit, Risk and Governance Committee oversees internal and external assurance activities, reviewing internal control effectiveness. The Group Internal Audit team delivers these activities with support from specialist advisers as needed.

Group Internal Audit

The Group Head of Internal Audit reports functionally to the Audit, Risk and Governance Committee and administratively, (i.e., in day-to-day operations) to the Chief Financial Officer and oversees the Group-wide Internal Audit function across all territories, covering corporate, operational, financial, and strategic risk areas.

Group Internal Audit provides independent and objective assurance on the adequacy and effectiveness of governance, risk management, and internal controls. This is achieved through risk-based internal audit reviews and a cinema compliance audit programme.

Group Internal Audit evaluates the design and effectiveness of financial and operational controls, standards and procedures, as well as compliance with laws, regulations and key Group policies, including Anti-Bribery and Corruption, Health and Safety, and Whistle-Blowing policies.

Findings, key themes and trends are reported to the Audit, Risk and Governance Committee and senior management.

Scope of Internal Audit

The remit of Internal Audit includes, but is not limited to, assessing and reporting on the following:

- The adequacy and effectiveness of financial and operational controls;
- Compliance with laws, regulations, and contracts;
- Opportunities for improving efficiency and reducing costs;
- The use and appropriateness of Group-wide policies, standards and procedures;
- The effectiveness of systems ensuring compliance with policies, laws, and regulations with significant organisational impact;
- The integrity of processes and systems, including those under development, to safeguard against error, fraud and financial loss;
- Designated advisory projects for management (provided they do not compromise Internal Audit's independence); and
- Investigations into suspected financial crime, employee theft or fraud, and malpractice.

Remuneration and Nomination

Policies and Practices

Group remuneration policies and practices are designed to support strategy and promote long-term sustainable success. The Remuneration Committee members consisted of four non-executive directors, with the CEO as a member and with the CFO and Chief People Officer ("CPO") in attendance. Their responsibilities included the following:

- all aspects concerning the terms of employment of any senior employee (including the terms of senior employee bonuses or other remuneration, terminations, or dismissal);
- any other arrangement between a Group Company and a senior employee or persons connected with a senior employee; and
- review and assessment of all senior nominations.

The Remuneration Committee met on two occasions during FY25.

For the year ended 30 November 2025

Approval and issue of financial statements

The Directors present their report and the audited financial statements for the year ended 30 November 2025. The comparative results for the prior period refer to the year ended 30 November 2024.

Results and Dividends

The profit for the year, after taxation, amounted to £39,791k (2024: £25,324k).

The Directors do not recommend that a dividend be paid (2024: £nil).

Future Developments

A discussion of future developments of the Company has been included in the Strategic Report and Going Concern section.

Post balance sheet events

See note 24 on page 55 for further details.

Directors

The directors of the Company who were in office during the year and up to the date of the signing of the financial statements were:
J. Timothy Richards
James McArthur (Appointed on 18 November 2025)
Narinder Shergill
Alison Cornwell (Resigned on 28 February 2025)
Matthew Eyre (Resigned on 16 February 2026)
Geoffrey Moore (Appointed on 23 February 2026)

The Directors have no interests in the shares of the Company.

Qualifying Third Party Indemnity Provisions

During the year to 30 November 2025 and at the date of approval of the financial statements, the Company maintained liability insurance for its Directors and officers.

Going Concern

The Company is reliant on the overall financing support of the wider Vue International Group ("the Group"). The Company has received a letter of support from its parent, Vue Entertainment International Limited ("VEIL"), confirming that it will provide financial support such that the Company is able to operate as a going concern and to settle its liabilities as they fall due for a period of no less than 12 months from the date of approval of these financial statements. The letter of support is, however, dependent upon the liquidity and forecasts being achieved by VEIL and its subsidiaries ("the VEIL Group"). In addition, the Company has provided a cross guarantee and share and asset security in support of the financing of the debt of the wider VEIL Group.

As at 30 November 2025 the Group had significant liquidity comprising £79.6m of unrestricted cash (total cash less cash that is restricted or otherwise ring-fenced).

The Group completed a financial restructuring on 20 February 2024 which strengthened liquidity and significantly deleveraged the balance sheet. Since that date, the capital structure remains broadly unchanged, with interest on certain debt instruments continuing to be capitalised for a two-year period in accordance with the restructuring terms (see note 25).

The Group has one financial covenant, a minimum liquidity covenant of £35m unrestricted cash which is tested at the end of each month.

The Directors have, at the time of approving the financial statements, a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future.

In considering the going concern position of the Company and the Group, a liquidity model has been developed which has been used to generate a Base Case and a 'Severe but Plausible' Downside Case (the "Downside Case").

The key principles underpinning these scenarios are set out in note 1.1.

The Group does not project any potential covenant breaches or additional liquidity needs during the period to 31 August 2027 in its Base Case or in its Downside Case.

The Group's positive net asset position of £301.8m further supports the Directors' view on the going concern of the business.

Employee involvement

Our people

People are at the core of delivering the best cinema experience across all the territories in which we operate. Creating and retaining high performing teams and individuals is therefore a key focus.

We continue to evolve the way we work and the core principles that drive our customer facing business.

Aligned organisational structures

In order to maximise international synergies and local opportunities in each of our markets, we develop global strategies which we tailor and roll out to each of our operating businesses such that we capitalise quickly on local prospects. To deliver this strategy and to ensure that organisational structures continue to meet business requirements, our structures are reviewed on an ongoing basis and continuously evolve within each territory.

Developing and retaining talented employees is a fundamental part of the Group strategy. With similar organisational structures in place across all territories, we can improve the way we offer employee career paths across the Group and also maximise commercial opportunities by identifying, sharing and implementing best practice.

Employee recognition and reward

The Company's reward and recognition strategy is designed to ensure that employees are aligned to the Company's goals and are rewarded for the contribution that they make to the Company's success. Performance is driven by ensuring that incentive and recognition plans align all employees to the delivery of key business priorities and targets. Pay and benefit structures are competitive and are regularly benchmarked against relevant external data.

Employees are rewarded on the basis of both overall Company performance and individual business contribution. Where teams have direct responsibility for specific revenue lines and profitability, bonuses have been designed to share with the team a percentage of the incremental revenue and profit that they generate.

Within our Company, there are local recognition and incentivisation schemes that reward great customer service and sales within our busiest periods. We continue to build on this.

Communication and engagement

The Company seeks to engage all employees in both its short and long-term goals. This is achieved through a number of two-way communication methods. Weekly cascade forums take place that enable the Company leadership team to communicate with each of the country General Managers and they cascade relevant information within their businesses. Senior management liaise regularly with employee forums on new initiatives and business updates. Cinema Management teams come together annually to hear key messages from Senior Leadership, discuss priorities for the year and network with colleagues. Film Days are held each year to enable Cinema operators to meet with representatives from the film studios and experience previews of future films to be released in the year ahead.

Finding and developing our top talent

The Company is committed to finding and appointing top talent as well as providing training and ongoing development aligned to business and employee needs. Designing effective recruitment tools and clearly defining role accountabilities, skills and capabilities are a prime focus across all territories.

As part of our standardised cinema operational excellence model, we are committed to continue building on what currently exists across the Company. This includes the modular training frameworks that help create clear career paths, ensuring that teams fulfil their potential and continue to develop their skills and ability within their current position but also for potential future opportunities. As the organisation continues to change, develop and grow, focused internal training and development programmes are delivered in order to support employees with the acquisition of business skills and capabilities. There are also bespoke and targeted development programmes for employees in the internal talent pools that support cinema management succession plans. Examples of these development programmes include Leadership, Personal Impact and Commercial Acumen. The talent pipelines ensure that critical vacancies are filled quickly and cost effectively.

Employee involvement and implementation of best practice

The Company seeks to engage all employees in both its short and long-term goals. This is achieved through a number of two-way communication methods including senior management briefings, employee forums and work councils.

Best practice is proactively identified and implemented across the Company using various methods such as setting up regular workshops that bring together key specialist managers in areas such as, but not limited to, Retail, Pricing, Marketing, Screen Content, HR and Finance.

Equality of opportunity and human rights

The Company via the Group is committed to its obligations under the Equality Act 2010 and the Modern Slavery Act 2015 and has policies in place to ensure an ethical and legal framework is provided to employees. The Company is committed to making full use of the talents within the business and therefore provides equal opportunities for all. Employment decisions which include recruitment, promotion, compensation, benefits, performance management and training are based on an individual's skills, performance, and behaviour and how these relate to the requirements of the business. The Company seeks to treat all its employees with dignity and respect. During 2025, updates were made to the guidance around how these Acts' requirements should be applied and the Company continues to monitor and update its policies and reporting to align with evolving guidance, best practice, and regulatory expectations.

The Group's whistle-blowing policy details how any member of staff with concerns about a potential issue (including potential occurrences of modern slavery or human trafficking) should bring the matter to the attention of senior management. This includes an option to raise the matter through a confidential whistle-blowing hotline and email contact address. Further details around the Group's commitments to human rights can be found on the Vue website.

The procurement team manages food and beverage suppliers and take responsibility for managing the supply base and sourcing responsibly. The Group Procurement policy and Supplier Code of Conduct ensures that all potential suppliers must provide confirmation that no instance of modern slavery or human trafficking has occurred (or is occurring) within their business; they must also demonstrate that they have suitable procedures and safeguards in place to prevent such issues occurring.

Disabled Employees

It is the policy of the Company that disabled people, whether registered or not, should receive full and fair consideration when applying for job vacancies for which they are suitable applicants. Employees who become disabled during their working life will be retained in employment wherever possible and will be given help with any necessary rehabilitation and retraining. The Company is prepared to modify procedures or equipment, wherever this is practicable, so that full use can be made of an individual's abilities.

Business relationships with suppliers, customers and others

The Directors support initiatives that foster long term, durable relationships with suppliers and customers.

Suppliers

The Company's main suppliers are the distributors of the films that drive admissions and the suppliers of branded food, drink and confectionery offered at cinemas.

The relative importance of each distributor varies over time, in line with the relative success of the individual films that they release each year and these relationships are managed through the Group's Screen Content teams.

The Territory teams report into the Group Director for Screen Content which ensures a consistent approach to strategy and delivery.

The Company, via the Group, has continued to develop its procurement capability for non-film purchasing activity.

Customers

The Company continues to offer and operate a high quality multiplex estate and customer experience. The Company continues to develop its customer offering through the introduction of technologies and full recliner leather seating. In addition, the Company adopts agile pricing strategies that offer customers great value whilst optimising admissions and profit.

Landlords

The Company, via the Group, continues to proactively review and manage lease contracts to ensure rent, length of lease and space rented are all optimally configured. During the year, several leases were re-geared to deliver additional value for the Company, via the Group, including securing Landlord funding to support major site refurbishments.

Streamlined Energy and Carbon Reporting (SECR)

The Company's Streamlined Energy and Carbon Reporting ("SECR") disclosures for the current financial year are shown below. Only businesses registered in the UK are considered within scope.

Energy consumption used to calculate emissions:	**Year ended 30 November 2025**	**Year ended 30 November 2024 Restated**
Gas	29,941,813 kWh	26,419,071 kWh
Electricity	49,603,189 kWh	49,012,315 kWh
Transport Fuel	120,544 miles*	71,373 miles*

*Transport combustion of fuel has been estimated from business mileage claims, and cannot be reliably converted to kWh.

FY24 comparative gas consumption and emissions figures for certain sites have been restated to reflect receipt of updated information.

	Year ended 30 November 2025 (tCO2e)	**Year ended 30 November 2024 Restated (tCO2e)**
Emissions from combustion of gas	5,478.15	4,832.07
Emissions from business travel in rental cars or employee-owned vehicles where company is responsible for purchasing the fuel	31.56	19.17
Emissions from purchased electricity (location based)	8,181.94	10,148.00
Total gross emissions	**13,691.65**	**14,999.24**
Emissions from combustion of gas	5,478.15	4,832.07
Emissions from business travel in rental cars or employee-owned vehicles where company is responsible for purchasing the fuel	31.56	19.17
Emissions from purchased electricity (market based)	597.83	712.29
Total gross emissions	**6,107.54**	**5,563.53**

	Year ended 30 November 2025 (tCO2e per 1000 admits)	**Year ended 30 November 2024 (tCO2e per 1000 admits)**
Intensity ratio (location based)	0.4676	0.4927
Intensity ratio (market based)	0.2086	0.1475

FY24 comparative gas consumption and emissions figures for certain sites have been restated to reflect receipt of updated information.

Methodology (location based)

The UK uses an energy management company that has provided gas and electricity consumption statistics for all sites. A small number of cinema sites have their energy managed by landlords. In this case, we have estimated consumption based on other similarly sized sites. Mileage has been collected from business mileage expense claims.

We have used the UK Government Greenhouse Gas ("GHG") Conversion Factors for Company Reporting (2024 edition) for emissions factors used for calculations. Emissions factors for natural gas have used a gross calorific value basis. The methodology used is consistent with the prior year.

Methodology (market based)

The majority of the UK's electricity is supplied by zero carbon, 100% renewable electricity sourced solely from solar, wind and hydro power. All sites supplied in this way have reported zero carbon emissions for electricity consumption in Scope 2 in line with the Greenhouse Gas Protocol market-based method. Sites that are landlord managed are reported using location-based conversion factors.

Although Vue Entertainment International Limited, as a private Jersey incorporated company, falls outside the scope of the UK Companies and Limited Liability Partnerships Climate Related Disclosure Regulations 2022 ("UK Climate Regulations") the Group is committed to providing disclosure on climate related matters. The climate-related disclosures are consistent with the required elements of the UK climate related financial disclosure regulations para 414CB(2A) parts (a) to (f) which are closely aligned to those set out in the guidelines published by the Task Force on Climate-related Financial Disclosures ("TCFD").

The climate-related disclosures set out how the Group incorporates climate-related risks and opportunities into governance, strategy, and risk management and what we are doing to reduce our environmental impact as part of meeting our business objectives.

The following information complies with requirements of the UK climate related financial disclosure regulations para 414CB(2A).

Governance and risk management

Climate-related risks are embedded within the Group's enterprise risk management framework.

The Board, supported by the Audit, Risk and Governance Committee and senior management, has overall responsibility for establishing, monitoring, and maintaining an effective risk management and internal control framework, including oversight of climate-related risks and opportunities.

During FY25, the Audit, Risk and Governance Committee met five times and maintained oversight of climate-related matters as part of its broader risk management and Environmental, Social, and Governance (ESG) responsibilities. The Audit, Risk and Governance Committee's Terms of Reference were updated during the year to formally include review of emerging risk areas including ESG matters.

During FY25, the Audit, Risk and Governance Committee reviewed:

- The current and evolving climate-related regulatory environment, including changes to UK and EU reporting requirements affecting the Group and its subsidiaries.
- Climate-related risks within the Group's risk register, including potential impacts on reputation, operational costs, and customer loyalty.
- Proposed developments to the Group's ESG governance framework.
- External insights on the intersection of tax policy and climate/ESG considerations.
- Progress on energy efficiency initiatives and renewable energy adoption.

Group Internal Audit provides independent assurance on governance, risk management, and internal controls. The Group Head of Internal Audit reports on climate-related matters to the Audit, Risk and Governance Committee as required.

Strategy

The Company via the Group recognises there are potential future impacts of climate change on business operations and supply chains, mainly in the medium to long term. Reviewing and identifying both risks and opportunities in navigating the medium to long term transition to a low-carbon economy enables us to develop and agree targeted plans that align with both meeting our business objectives, whilst also capturing the long-term value that this transition offers and mitigating associated risks as far as possible.

We acknowledge that challenges will evolve over time so we will continue to review which risks and opportunities are material to the Group, as well as considering our identified risks and opportunities over three-time horizons: short-term, medium-term, and long-term.

Scenario Analysis

The Group conducted a qualitative climate scenario analysis in FY25, building on work from FY24. The identified risks and opportunities continue to be monitored through the Group's risk management processes.

As part of this exercise, the Group conducted a materiality assessment of climate related risks and opportunities and several were deemed to be immaterial at a Group level.

It is the view of Management that the transition to a low-carbon economy presents greater opportunity for the Group than risk. For instance, the planned Amsterdam cinema has been designed with air source heat pumps, high-efficiency underfloor heating, and solar panels that are anticipated to generate up to 80% of the energy required onsite providing a cost saving as well as decarbonising the energy supply. In addition, the Group has identified that the installation of solar panels at a number of sites across our circuit, subject to agreeing a suitable commercial framework with third parties to do so, will provide the opportunity for further cost saving and decarbonising opportunities.

The Group is cognisant of, and recognises, the risk and severity of the physical consequences of climate change. From a qualitative assessment, the Group is comfortable that the geographic dispersion of its operational sites both across and within its territories means that the likelihood of extreme weather events having a material impact on the Group is limited. Furthermore, our operating model provides flexibility and resilience to sharp changes in the prices of key supplies and energy.

Chosen parameters

The scenario analysis was performed considering two IPCC climate scenarios, SSP1 RCP1.9 and SSP4 RCP4.5, across three time-horizons:

- Short-term: 2025-2027 (1-2 years)
- Medium-term: 2027-2030 (2-5 years)
- Long-term: 2030-2050 (5-25 years)

The time horizons were designed to align to the business planning cycles for operational, investment, strategic decisions, and market best-practice.

The climate scenarios SSP1 RCP1.9 and SSP4 RCP4.5 were selected to include a 1.5 °C aligned scenario (SSP1 RCP1.9) as well as a higher temperature, 2.5 °C, disorderly world scenario (SSP4 RCP4.5).

The geographical boundaries cover all territories of operation: UK & Ireland, Germany, Denmark, Italy, Poland & Lithuania, and the Netherlands.

Climate related risks and opportunities

The Group's material climate-related risks and opportunities are outlined within the subsequent pages. For each, we have provided an indication of their potential impact and how they have or may affect our business, strategy, and financial planning.

We have also provided an overview of possible mitigations available to us. This is not an exhaustive list and there may be risks and uncertainties, or opportunities, that the Board is not aware of, or are believed to be immaterial, which could have an adverse, or positive, effect on the Group.

The materiality assessment of identified climate risks and opportunities is aligned to the Group risk management process. The likelihood of occurrence and impact to the business for each risk and opportunity is scored to determine those material to the Group, and only material risks and opportunities are presented in the table.

Risks are classified as physical risks, (e.g. damage to infrastructure from extreme weather events) and transitional risks, (e.g. changes in regulations, consumer preferences towards environmentally friendly entertainment options, etc.)

Material risks and opportunities

Description	Scenario	Time horizon	Impacts	Mitigation
Physical risk: Acute				
Risk of disruption to the film supply chain caused by extreme weather events and impacts.	Global temperatures rise by more than 2.5° C	Short / medium term	Significant disruption to the supply of films globally. Many film production studios congregate around one specific geographic area, if this area is vulnerable to the impacts of extreme weather this can cause significant delays to production, resulting in business disruption.	• Develop a contingency plan for any future film supply disruptions to ensure sufficient cashflow. • There are limitations to the level the mitigation can be applied, e.g. having a diverse content base is limited to a certain extent. Pulling in local content or dubbed versions of foreign films is dependent on consumer appetite and dubbed films are often less popular in the UK, but more common in Italy or Poland.
Transition risk: Policy and Legal				
Risk of increased costs associated with the Net Zero transition, from the high-level investment required to switch to lower emissions technology and the associated costs from compliance with mandates on and regulation of the emissions and energy usage.	Global temperatures rise by more than 1.5° C	Medium/ long term	Significant investment cost to transition to lower emissions technology, and high costs associated with mandates and regulation of the emissions and energy usage by relevant authorities.	• Create a transition plan to understand the costs and savings associated with the move to net zero and reflect within financial planning, including exploring opportunities to partner with both landlords and third-party suppliers to identify suitable commercial frameworks, with a focus on high-exposure sites where tangible efficiency improvements can be made. • Review the regulatory environment to ensure all territories are up to date with the changing regulatory requirements. • Continue to seek and utilise Government subsidies and tax incentives for low emission technologies where available.

Description	Scenario	Time horizon	Impacts
Opportunities			
Lower-emission sources of energy leading to reduced exposure to future fossil fuel price increases and Greenhouse Gas (GHG) emissions and therefore less sensitivity to changes in the cost of carbon.	Global temperatures rise by more than 1.5°C	Short / medium term	Reduced reliance on often volatile fossil fuel prices as well as the future regulatory compliance and proof of significant GHG reductions.
Opportunity for on-site energy generation.	Global temperatures rise by more than 1.5°C	Short / medium term	Significant potential reductions in energy costs, future regulatory compliance and proof of significant GHG reductions.
Opportunity for improved brand image and increased demand from changing customer sentiment, through promotion of current and future green credentials.	Global temperatures rise by more than 1.5°C	Short / medium term	Opportunity for differentiation and improved customer sentiment if Vue continues to pursue and further promote sustainability initiatives.

Adoption of Sustainable Practices

The Group continued to progress energy saving initiatives during the year, partnering with landlords where appropriate. Key progress areas were:

- Laser projection: during FY25, the Group continued to progress its transition toward energy-efficient laser projection technology across its estate. Building on the foundations laid in prior years, further planning and co-ordination took place with the Group's strategic suppliers to support the phased rollout of a multi-year replacement programme.
- Sustainable Building Design: refurbishing cinemas with sustainable materials and designs can decrease energy consumption and appeal to eco-conscious patrons. Where possible during refurbishments, furniture and fittings are re-used or re-housed.
- Energy efficient operations: improvements to operational infrastructure provides the opportunity to both enhance the customer experience and reduce energy usage. Replacing heating/HVAC units with more energy efficient models reduced energy by 5-15%.
- Green Energy supply: our direct electricity purchases in Germany and the UK are now 100% from green sources (for the UK this has been the case since 2017).
- Circular Economy and Waste Reduction: In line with supporting a transition to a circular economy, Vue continues to focus on reducing waste through recycling initiatives and has made successful transitions to digital ticketing and advertising over recent years.

Statement of Directors' Responsibilities in Respect of the Financial Statements

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law).

Under company law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 101 have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

Directors' confirmations

In the case of each director in office at the date the directors' report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Independent Auditors

Under section 487(2) of the Companies Act 2006, PricewaterhouseCoopers LLP will be deemed to have been reappointed as auditors 28 days after these financial statements were sent to members or 28 days after the latest date prescribed for filing the accounts with the registrar, whichever is earlier.

This report was approved by the Board and signed on its behalf by:

N. Shergill

Narinder Shergill
Director
Date: 13 April 2026

Independent auditors' report to the members of Vue Entertainment Limited

Report on the audit of the financial statements

Opinion

In our opinion, Vue Entertainment Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 30 November 2025 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 101 "Reduced Disclosure Framework", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise:

- the Balance Sheet as at 30 November 2025;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Equity for the year then ended; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

- Agreeing the underlying cash flow projections in the Base Case scenario to the latest Board approved forecasts, assessing how these forecasts are prepared and comparing them to external data sources (including industry forecasts) and historical company data (including cinema admissions and margins);
- Considering the sensitivities applied to the Base Case scenario to develop a 'Severe but Plausible' Downside Case that appropriately reflects potential risks within the Base Case scenario;
- Reading the latest debt facility agreements to understand the terms of the facilities (including covenants) and confirming that these have been appropriately considered in management's going concern assessment;
- Checking the mathematical accuracy of the spreadsheet model used to support management's Base Case and 'Severe but Plausible' Downside case;
- Considering the mitigating actions that have been modelled in the 'Severe but Plausible' Downside Case understand the extent to which they are within management's control; and

- Reviewing the disclosures presented in Note 1 to determine whether these accurately reflect the process performed by the Directors and that the disclosure adequately captures the key assumptions in management's assessment, including the potential mitigating actions available to the Group.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 30 November 2025 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities in Respect of the Financial Statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to data protection regulation (including GDPR), employment law and health and safety legislation, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as Companies Act 2006 and UK tax legislation. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries and management bias in accounting for estimates and judgements. Audit procedures performed by the engagement team included:

- Enquiries of entity staff in tax and compliance functions (including internal audit) to identify any instances of non-compliance with laws and regulations;
- Reviewing minutes of meetings of those charged with governance;
- Reviewing the results of internal audit activities;
- Reviewing financial statement disclosures and testing to supporting documentation to assess compliance with the applicable laws and regulations; and
- Auditing the risk of management override of controls, including through testing journal entries and other adjustments for appropriateness, testing accounting estimates and judgements and evaluating the business rationale of significant transactions outside the normal course of business.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Notes to the Financial Statements

For the year ended 30 November 2025

1. Accounting policies

1.1. Basis of preparation of financial statements

The Company is a private company limited by share capital incorporated and domiciled in the United Kingdom. The address of the registered office is 3rd Floor, One Ariel Way, Westfield, London, W12 7SL. The financial statements of the Company have been prepared in accordance with the Companies Act 2006 as applicable to companies using Financial Reporting Standard 101, 'Reduced Disclosure Framework' (FRS 101). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of land and buildings and derivative financial assets and financial liabilities measured at fair value through profit or loss, and in accordance with the Companies Act 2006. The preparation of financial statements in conformity with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

A summary of the more important accounting policies, which have been applied consistently throughout the year are set out below, together with an explanation of where changes have been made to previous policies on the adoption of new accounting standards in the year.

Going concern

The Company is reliant on the overall financing support of the wider Vue International Group ("the Group"). The Company has received a letter of support from its parent, Vue Entertainment International Limited ("VEIL"), confirming that it will provide financial support such that the Company is able to operate as a going concern and to settle its liabilities as they fall due for a period of no less than 12 months from the date of approval of these financial statements. The letter of support is, however, dependent upon the liquidity and forecasts being achieved by VEIL and its subsidiaries ("the VEIL Group"). In addition, the Company has provided a cross guarantee and share and asset security in support of the financing of the debt of the wider VEIL Group.

The Directors have, at the time of approving the financial statements, a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for at least 12 months from the approval of the financial statements. The Directors have considered the principal risks and uncertainties set out in the Strategic Report alongside the balance sheet, cash flows, borrowing capacity and liquidity position.

As at 30 November 2025 the Group had significant liquidity comprising £79.6m of unrestricted cash (total cash less cash that is restricted or otherwise ring-fenced).

The Group completed a financial restructuring on 20 February 2024 which strengthened liquidity and significantly deleveraged the balance sheet. Since that date, the capital structure remains broadly unchanged, with interest on certain debt instruments continuing to be capitalised for a two-year period in accordance with the restructuring terms (see note 25).

The Group has one financial covenant, a minimum liquidity covenant of £35m unrestricted cash which is tested at the end of each month.

In assessing the going concern position of the Group, the Directors have considered the performance of the Group's business operations in each territory together with the upcoming film slate and external factors such as energy costs, inflation and cost of living pressures.

The Group has developed a Base Case liquidity model which runs to 31 August 2027. The key principles supporting this forecast include the following:

- Vue admissions are assumed to be in line with the latest admissions market share by territory.
- Admissions for December 2025 to November 2026 and FY27 are projected to be 83% and 86% of the 3 yr. Av. market size FY17-FY19 respectively.
- Pricing strategy delivers ATP growth through incremental dynamic pricing initiatives whilst maintaining and/or increasing market share, together with further roll out of Refurbishments, EPIC and Ultra Lux seating.
- SPP increases targeted through price increases, new products and promotions, and further deployment of our self-service retail proposition 'Your Way'.

1. Accounting policies (continued)

- Property rent is the largest fixed cost within the business and is based on long leases with specific indexation clauses. FY26 and FY27 property rent costs assume contractual indexation inflation, offset partly by the exit from a small number of predominantly loss-making sites.

- Liquidity projections reflect the expiration of PIK interest options in February 2026 resulting in cash interest payments throughout the projection period.

The Base Case demonstrates sufficient headroom in respect of the minimum cash liquidity throughout the assessed period.

The Group has also developed a 'Severe but Plausible' Downside Case (the "Downside Case") to stress test the Group's financial projections in consideration of the Group's Principal Risks and Uncertainties as set out in the Strategic Report. This includes the impact of:

- A 2% reduction in admissions from March 2026 to May 2026, 4% reduction from June 2026 to November 2026 and 6% reduction in FY27 to reflect adverse trading conditions impacting the commercial operations of the business.

- In FY27, an additional 1% increase in cost inflation on the total cost base including rent.

In the Downside Case, the Group's liquidity remains above the minimum liquidity covenant of £35m.

Although the Directors consider further mitigating actions are unlikely to be required, the following incremental sources of liquidity may be available to the Group:

- The new financing agreement includes a super senior debt basket of £50m. This does not represent committed financing and a process would require to be undertaken to raise these additional funds.

- Negotiation of the timing of supplier payments, following successful discussions with suppliers over several years during and after the COVID pandemic.

- Management retains discretion over the timing of certain capital expenditure programmes, providing flexibility to defer non-essential spend where appropriate in response to liquidity requirements.

In addition, in March 2026 the Group successfully negotiated a two-year extension of all its existing loan facilities (Reinstated Senior, Reinstated 1.5L, Super Senior, and Super Senior New Money) with no changes to terms other than the revised maturities to June 2029 (Super Senior and Super Senior New Money) and December 2029 (Reinstated Senior and Reinstated 1.5L. The Directors are satisfied that these extended facilities provide sufficient liquidity and covenant headroom to support the Group's continuing operations on a going concern basis.

Taking the above into consideration, the Directors are satisfied that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future, a period of at least 12 months from the date of this report. Accordingly, the Company and the Group continue to adopt the going concern basis in preparing these financial statements.

The directors have adopted the going concern basis of preparation in preparing these financial statements. The directors have, at the time of approving the financial statements, a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future, a period of at least 12 months from the date of this report. See the Going Concern section of note 3 to the consolidated financial statements which is also applicable to the Company.

1. Accounting policies (continued)

1.2. New and amended standards not applied

The following standards and interpretations in issue are not yet effective for the Company and have not been adopted by the Company:

	Effective dates
IAS 21 The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability	1 January 2025
Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures: Amendments to the Classification and Measurement of Financial Instruments and Contracts Referencing Nature-dependent Electricity	1 January 2025
Annual Improvements to IFRS Accounting Standards – Amendments to: • IFRS 1 *First-time Adoption of International Financial Reporting Standards* • IFRS 7 *Financial Instruments: Disclosures and its accompanying Guidance on implementing* IFRS 7 • IFRS 9 *Financial Instruments* • IFRS 10 *Consolidated Financial Statements* • IAS 7 *Statement of Cash flows*	1 January 2026
IFRS 18 *Presentation and Disclosure in Financial Statements* Amendments to IFRS 18 *Presentation and Disclosure in Financial Statements* The Company is currently assessing the impact of IFRS 18. It is expected that IFRS 18 will have a significant impact on the presentation of the Statement of Comprehensive Income, and may require judgements around aggregation and disaggregation of certain balances, as well as requiring additional disclosures relating to Management-defined Performance Measures, aggregation and disaggregation, and EPS. IFRS 18 is yet to be endorsed by the UKEB and the Company is not seeking to early adopt the standard.	1 January 2027
IFRS 19 *Subsidiaries without Public Accountability: Disclosures*	1 January 2027
Amendments to IAS 21 - Translation to a Hyperinflationary Presentation Currency	1 January 2027

The effective dates stated above are those given in the original IASB/IFRIC standards and interpretations.

The Company's financial year ends on 30 November. Accordingly, standards and interpretations issued by the IASB that are effective for annual periods beginning on or after 1 January 2025 will first apply to the Company in the financial year ending 30 November 2026. As the effective dates vary, each standard will be applied in the Company's first financial statements covering the annual period beginning on or after its respective effective date.

Except for IFRS 18, which is expected to have a material impact on the financial statements, the Directors do not expect the adoption of these standards and interpretations to have a material impact on the financial statements.

1.3. Accounting reference date

The results for the current year refer to the year ended 30 November 2025.

The comparative results for the prior year refers to the year ended 30 November 2024.

1. Accounting policies (continued)

1.4. Financial Reporting Standard 101 - reduced disclosure exemptions

Exemption from preparing consolidated financial statements

The financial statements contain information about the company as an individual company and do not contain consolidated financial information as the parent of a group. The Company is exempt under Section 400 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as it and its subsidiary undertakings are included by full consolidation in the consolidated financial statements of Vue Holdings (UK) Limited, a company registered in the United Kingdom.

The Company has taken advantage of the following disclosure exemptions under FRS 101:

- the requirements of paragraphs 45(b) and 46-52 of IFRS 2 Share-based payment
- the requirements of IFRS 7 Financial Instruments: Disclosures
- the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134-136 of IAS 1 Presentation of Financial Statements
- the requirements of IAS 7 Statement of Cash Flows
- the requirements of paragraph 17 and 18A of IAS 24 Related Party Disclosures
- the requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member
- paragraph 30 and 31 of IAS 8 'Accounting policies, changes in accounting estimates and errors' (requirement for the disclosure of information when an entity has not applied a new IFRS that has been issued but is not yet effective)
- The requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d) to 134(f) and 135(c) to 135(e) of IAS 36 Impairment of Assets, provided that equivalent disclosures are included in the consolidated financial statements of the group in which the entity is consolidated.

1.5. Revenue Recognition

The Company recognises revenue from the following major sources:

- Box office
- Concessions
- Screen advertising
- Booking fees
- Corporate partnership
- Gift cards

Revenue is measured based on the fair value of the consideration received or receivable, taking into account contractually-defined terms of payment in relation to when the performance obligation is met, and excludes amounts collected on behalf of third parties.

The transaction price represents the price to which the Company expects to be entitled, consistent with contractually defined terms, in return for delivering goods and/or services to its customers. Revenue from contracts with customers is recognised when the Company transfers control of a product or service to a customer or when it meets the performance obligations specified or implied in the contract.

Box office

Box office revenue is recognised at a point in time when control of the services has transferred to the customer, being at the point the services have been performed. Services are deemed to have been performed on the date of the showing of the related film. Payment for box office services is due from the customer at the time of purchasing the related ticket.

Where payment for box office services is in the form of advance payments from customers (e.g., purchase of advanced bulk tickets), a contract liability is recognised for revenue relating to box office services at the time of receipt of the funds from the customer. The contract liability represents the Company's obligation for services still to be performed.

1. Accounting policies (continued)

Concessions

Revenue arising from the sale of concessions is recognised at a point in time when control of the goods has transferred to the customer, being at the point the goods are delivered to the customer. Payment for concessions is due from the customer at the time of purchase.

Screen advertising

Revenue relating to screen advertising is recognised over time based on the stage of completion of the contract. The stage of completion is determined as the proportion of the total number of advertisements expected to be aired to perform the service that have been shown in the cinema at the end of the reporting period. Payment for screen advertising is not due from the customer until the activities are complete. Consequently, a contract asset is recognised over the period in which the activities are performed, representing the Company's right to consideration for the services performed to date.

Where payment for screen advertising is in the form of advance payments from customers, a contract liability is recognised for revenue relating to screen advertising at the time of receipt of the funds from the customer. The contract liability represents the Company's obligation for services still to be performed.

Booking fees

Revenue relating to booking fees is recognised at a point in time when control of the services has transferred to the customer, being at the point the services have been performed. Services are deemed to have been performed on the date that the booking takes place. Payment for booking fees is due from the customer at the time of making the booking.

Corporate partnership

Revenue from corporate partnerships and related event services is recognised at a point in time when control of the promised services transfers to the customer, which is when the relevant services have been performed. For event-based arrangements, this is typically the date on which the event takes place.

Consideration is typically received in advance of service delivery with amounts received prior to the transfer of services being recognised as contract liabilities and released to revenue when the associated performance obligations are satisfied.

Gift cards

Revenue arising from the sale of gift cards is recognised at a point in time, being at the point the gift cards are redeemed by the customer. Payment for gift cards is in the form of advance payments from customers. A contract liability is recognised for revenue relating to unredeemed gift cards at the time of receipt of the funds from the customer. The contract liability represents the Company's obligation for services still to be performed.

Revenue relating to unredeemed gift cards is recognised over time on a straight-line basis based on a proportion of gift card redemptions. The proportion of unredeemed gift card redemptions is estimated primarily based on the Company's historical experience.

1.6. Cost of sales

Cost of sales consists of all costs that are directly attributable to the point of sale. Supplier incentives, rebates and discounts, collectively known as 'supplier arrangements', represent a deduction to cost of sales and directly affect the Company's reported margin. Income from supplier arrangements is recognised when earned by the Company when all obligations per the terms of the contract have been satisfied.

Any supplier arrangements which are linked to inventory purchases are included within the cost of the related inventory, and therefore recognised within cost of sales once the inventory is sold. Unpaid amounts relating to supplier arrangements are recognised within trade and other receivables, unless there is a legal right of offset, in which case it is recognised within trade and other payables.

1. Accounting policies (continued)

1.7. Leases

From 1 December 2019, the Company applied IFRS 16 using the modified retrospective approach.

The Company's lease portfolio relates, predominantly, to property leases for each cinema site, however, also includes other assets such as motor vehicles.

At the inception of a contract, the Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the lease commencement date, which is when the lessor makes the identified asset available for use by the Company, a right-of-use asset and a lease liability is recognised.

The Company measures the lease liability as the present value of the lease payments that are not paid at that date. The lease payments are discounted using the Company's incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- Fixed payments, less any lease incentives receivable; and
- Variable lease payments that depend on an index or a rate.
- Future increases in variable lease payments based on an index or rate are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The incremental borrowing rate is defined as the rate the Company would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions. The incremental borrowing rates applied to leases ranged between 5.2% and 14.7% (2024: 5.2% and 14.3%).

Movement in the lease liability results from:

- Increasing the carrying amount to reflect interest on the lease liability;
- Reducing the carrying amount to reflect the lease payments made; and
- Re-measuring the carrying amount to reflect any reassessment or lease modifications.

The lease liability is re-measured when there are changes to lease payments or lease length and the corresponding adjustment is made to the right-of-use asset. However, if the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement through the income statement.

The cost of the right-of-use asset is calculated as:

- An amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised immediately before the date of initial application; and
- Any lease payments made at or before the commencement date, less any lease incentives received.

Right-of-use assets are depreciated over the lease term on a straight-line basis and reported through the Income Statement within administrative expenses.

Right-of-use assets are tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss which is recognised in the Income Statement.

An impairment is reversed when there is an indication that the impairment loss may no longer exist as a result of a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Where leases have been modified, resulting in a reduction in the carrying value of the right-of-use asset, the impairment loss reversal will not exceed the modified carrying amount. Interest on the lease liability in each period during the lease term is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

1. Accounting policies (continued)

Low value and short term exempt leases

Payments associated with short-term leases and leases of low-value assets are exempt from IFRS 16 and as such continue to be recognised on a straight-line basis as an expense in the income statement. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipment and small items of office and cinema equipment.

Lease incentives

Lease incentives predominantly relate to rent free periods or cash contributions from landlords for agreed investment in property, plant or equipment. Where the Company receives contributions and incentives from landlords at the start of the lease or later following subsequent negotiations, these are recorded against the right-of-use asset. Where conditions are met after the start of the lease, these are reflected in the future lease payments resulting in a re-measurement of lease liability and adjustment to right-of-use asset. Lease incentives recognised when conditions are met after the lease start should only impact the right of use asset when conditions are met after the lease start.

Variable lease payments

Some property leases contain variable payment terms that are linked to performance measures generated from a particular cinema site. Variable payment terms are common in the cinema and retail industries in the countries where the Company operates. Under IFRS 16 variable lease payments that are not indexation linked are recognised in administrative expenses within the income statement in the period in which the condition that triggers those payments occurs.

1.8. Property, plant and equipment

Property, plant and equipment is stated at cost less accumulated depreciation and any recognised impairment loss, with the exception of freehold land which is not depreciated. Where parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Depreciation is charged to the income statement to write assets down to their residual values on a straight-line basis over their estimated useful lives on the following basis:

Short-term leasehold property	- 20 to 35 years (or length of lease, if shorter)
Fixtures and fittings	- 5 to 13 years (or length of the lease, if shorter)

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. An item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected to arise from the continued use of the asset. The gain or loss arising on the disposal or scrapping of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the income statement.

Assets under construction are not depreciated until projects are completed and brought into use.

Property, plant and equipment is assessed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may not be recoverable then testing for impairment is performed. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss which is recognised in the income statement.

An impairment is reversed when there is an indication that the impairment loss may no longer exist as a result of a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1. Accounting policies (continued)

1.9. Intangible assets

Intangible assets with finite useful lives are stated at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight line basis over their estimated useful lives. Intangible assets acquired in a business combination and recognised separately from goodwill are initially recorded at their fair value at the acquisition date. Following initial recognition, these assets are carried at cost less any accumulated amortisation or impairment losses, on the same basis as intangible assets that are acquired separately.

The useful economic lives of acquired intangible assets are estimated based on discounted future cash flows of the acquired business.

Computer software is initially recorded at cost. Where these assets have been acquired through a business combination, this will be the fair value allocated in the acquisition accounting. Where these have been acquired other than through a business combination, the initial cost is the aggregate amount paid and the fair value of any other consideration given to acquire the asset.

Amortisation is calculated on a straight line basis over the estimated useful lives of the assets as follows:

Computer software	- 3 to 5 years

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset are recognised in the income statement when the asset is derecognised.

Intangible assets are tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may not be recoverable.

Impairment losses are measured on a similar basis to property, plant and equipment and recognised in the income statement. Useful lives are also examined on an annual basis and adjustments, where applicable, are made on a prospective basis.

An impairment is reversed when there is an indication that the impairment loss may no longer exist as a result of a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.10. Impairment of property, plant and equipment and intangible assets

The Company considers each cinema site to be a cash-generating unit ("CGU"). The carrying amount of each CGU is normally reviewed for impairment when events or changes in circumstances indicate that the carrying amount of the CGU may not be recoverable.

A full impairment test was performed on the Company's property, plant and equipment irrespective of the identification of any impairment triggers.

The need for any property, plant and equipment impairment provision is assessed by a comparison of the carrying value of a CGU with its recoverable amount being the future value in use to the business. The value in use is made with reference to the approved future business forecasts of the Company making certain adjustments as required by the accounting standard.

An impairment is reversed when there is an indication that the impairment loss may no longer exist as a result of a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

The discount rate of 10.9% (2024: 11.8%) has been applied when assessing the future cash flows of asset in use. The discount rate is derived from the estimated weighted average cost of capital employed by the Group, adjusted as necessary for any particular risks of the subsidiary being reviewed.

1. Accounting policies (continued)

1.11. Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

1.12. Inventory

Inventories are valued on a first-in, first-out ("FIFO") basis and are stated at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving inventory. Inventory cost includes all direct costs.

1.13. Provisions

Provisions for property, restructuring or other legal costs are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation.

Where a provision is measured using the cash flows estimated to settle the present obligation, the carrying amount of the provision is the present value of those cash flows (when the effect of the time value of money is material), discounted using an appropriate discount rate to reflect the risks of those cash flows.

1.14. Pensions

Pension contributions, which are made to a defined contribution pension plan held within the Company, are charged to the Statement of Comprehensive Income as incurred. These contributions are invested separately from the Company's assets.

1.15. Pre-opening expenses and initial site development expenses

Start up, pre opening and pre-operating costs are written off in the period in which they are incurred. Expenditure of a capital nature, as set out in IAS 16, is not incurred until the Board approves the development of the cinema site.

1.16. Taxation

Current taxation

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the Income Statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

1. Accounting policies (continued)

Deferred taxation

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method.

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date.

Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited in other comprehensive income, in which case the deferred tax is also dealt with in other comprehensive income.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current tax and deferred tax for the year
Current and deferred tax are recognised in the income statement, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

1.17. Interest income

Interest income is recognised in the Statement of Comprehensive Income using the effective interest method.

2. *Critical accounting estimates and judgements*

In the application of the Company's accounting policies, which are described in note 1, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised, if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future years.

Apart from the judgement on going concern discussed in note 1.1, the following are the critical judgements, apart from those involving estimations (which are dealt with separately below), that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in financial statements.

Impairment of right-of-use assets, property, plant and equipment (estimate and judgement)

When indicators of impairment exist the Company determines whether the right-of-use asset or property, plant and equipment are impaired. The impairment is determined by estimating the value in use of the cash-generating units to which the assets are allocated, which involves making an estimate of the expected future cash flows from the cash-generating units that hold the fixed assets at a determined discount rate to calculate the present value of those future cash flows. The Company is required to make certain assumptions about the future cash flows to be generated from the individual cinema sites; it is also required to discount these cash flows using an appropriate discount rate. The resulting calculation is sensitive to these assumptions. The Directors consider the assumptions to represent the best estimate of the future cash flows generated by the cinema sites and that the discount rate used is appropriate given the risks.

Valuation of right-of-use assets and lease liabilities (estimate and judgement)

The application of IFRS 16 requires the Company to make estimates and judgements that affect the measurement of right-of-use assets and lease liabilities. In determining the lease term the Company must consider all facts and circumstances that create an economic incentive to exercise renewal options (or not exercise termination options). This includes the length of time remaining before the option is exercisable; current and future trading forecast as to the ongoing profitability of the site; and the level and type of planned future capital investment. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated). Estimates are required to determine the appropriate incremental borrowing rate used to recognise lease liabilities at fair value.

Under IFRS 16 the cost of a right-of-use asset includes the costs of dismantling and removing the item and restoring the site on which it is located i.e. dilapidations. Judgement is required in determining if a contract includes an obligation to cover these costs and that future outflow of resources is probable in order to settle the obligation. Estimates are required in determining the amount where these conditions exist.

Recognition of deferred tax assets (judgement)

The recognition of deferred tax assets, particularly in respect of tax losses, is based upon whether it is probable that there will be sufficient taxable profits in the relevant legal entity or tax group against which to utilise the assets in the future. Management therefore exercises judgement in assessing the future financial performance of the particular entity or tax group in which the deferred tax asset is to be recognised. In assessing the recoverability of deferred tax assets, the Company has considered future projections of profitability consistent with those underpinning other areas of financial reporting, such as impairment testing.

3. Revenue

Revenue, which is generated within the United Kingdom, comprises the value of goods and services provided to customers exclusive of value added tax.

All revenue arose within the United Kingdom.

The Company derives revenue from the following major sources:

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Box office	167,881	152,182
Concessions	100,170	93,529
Screen advertising	14,708	13,934
Corporate partnership	12,865	11,353
Booking fees	13,401	12,384
Gift cards	1,357	1,432
Other	2,664	1,935
	313,046	**286,749**

Other revenue includes revenue from the sale of 3D glasses, property rental income, and other sundry revenue.

The Company derives revenue from the transfer of goods and services over time and at a point in time. The timing of revenue recognition is split as follows:

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
At a point in time	294,936	270,052
Over time	18,110	16,697
	313,046	**286,749**

4. Operating profit

The operating profit is stated after charging/(crediting):

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Depreciation of tangible fixed assets	19,691	15,455
Net impairment reversal of tangible fixed assets	(220)	(2,514)
Depreciation of right-of-use assets	16,102	17,213
Net impairment charge/(reversal) of right-of-use assets	333	(939)
Net amortisation of intangible assets, including goodwill	297	133
Net impairment reversal of intangible assets	-	(3)
Net impairment charge of intercompany loan receivable	1,010	179

In the year ended 30 November 2025, the auditors' remuneration of £116k (2024: £110k) was borne by Vue Services Limited, a fellow subsidiary undertaking. During the year, PricewaterhouseCoopers LLP did not perform any non-audit services (2024: £nil).

Recoverability of intercompany loans are reviewed annually for impairment. In the year ended 30 November 2025, an impairment charge of £1,014k (2024: £179k) has been recognised in respect of amounts due from Vue Entertainment Holdings Ireland Limited. In addition, a reversal of impairment of £4k (2024: £nil) has been recognised in respect of amounts due from Vue Holdings (Jersey) Limited.

5. Employees

Staff costs were as follows:

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Wages and salaries	37,651	32,505
Social security costs	2,635	1,558
Other pension costs	479	431
	40,765	**34,494**

The average monthly number of employees, including the directors, during the year was as follows:

	Year ended 30 November 2025 No.	Year ended 30 November 2024 No.
Cinema	3,503	3,115
	3,503	**3,115**

Included in the average number of persons employed by the Company are part-time employees. No distinction is made between full-time and part-time employees in the analysis above.

5. Employees (continued)

Directors' emoluments

For the financial year to 30 November 2025, directors' emoluments were incurred in relation to three (2024: four) directors by Vue Entertainment International Limited. One (2024: three) directors' emoluments were incurred by Vue Services Limited for the period of their appointment. The directors of the Company are remunerated in respect of their executive management services to the Group as a whole and borne by Vue Entertainment International Limited and Vue Services Limited of which a portion is recharged to the Company as part of a management service fee and is not separately identifiable. Their duties in respect of the Company are incidental to the directors' duties as a whole. The directors' emoluments are included within the aggregate emoluments disclosed in the consolidated financial statements of Vue Entertainment International Limited and the financial statements of Vue Services Limited.

The highest paid Directors' emoluments are included within the directors' emoluments disclosed in the consolidated financial statements of Vue Entertainment International Limited and the financial statements of Vue Services Limited.

6. Interest receivable and similar income

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Interest receivable from group companies	27,278	6,557
Other interest receivable	778	458
	28,056	**7,015**

7. Interest payable and similar expenses

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Interest on lease liabilities (note 11)	34,850	32,880
	34,850	**32,880**

8. Tax on profit

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Total current tax	-	-
Deferred tax		
Origination and reversal of timing differences	(1,900)	(745)
Adjustments in respect of previous periods	675	(4,266)
Total deferred tax (note 19)	**(1,225)**	**(5,011)**
Taxation on profit	**(1,225)**	**(5,011)**

Factors affecting tax (credit)/charge for the year

The effective rate of current tax for the year, based on the UK standard rate of corporation tax, is 25.0% (2024: 25.0%). The current tax charge for the year differs from the standard rate for the reasons shown in the reconciliation below:

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Profit before tax	38,566	20,313
Profit before tax multiplied by standard rate of corporation tax in the UK of 25.0% (2024: 25.0%)	9,642	5,078
Effects of:		
Expenses not subject to tax	751	780
Adjustments in respect of previous years	675	(4,266)
Group relief	(12,293)	(6,603)
Total tax (credit)/charge for the year	**(1,225)**	**(5,011)**

Adjustments in respect of the previous year arose on fixed asset timing differences due to Capital Allowances no longer being claimed at the point of the prior year tax return being submitted.

Factors that may affect future tax charges

UK Corporation tax is calculated at 25.0% (2024: 25.0%) of the estimated taxable profit for the year. For the financial year ended 30 November 2025, the current weighted average tax rate was 25.0%. Deferred taxes at the balance sheet date have been measured using these enacted tax rates and reflected in these financial statements.

9. Intangible assets

	Year ended 30 November 2025	Year ended 30 November 2024
Net book value:	**£'000**	**£'000**

Total	-	**321,162**	**321,162**

Right of use assets	Equipment £'000	Land and Buildings £'000	Total £'000
At 1 December 2024	-	154,785	154,785
Current year additions	571	13,399	13,970
Net investment in sublease	-	(1,694)	(1,694)
Lease modifications	-	(2,201)	(2,201)
Impairment charge	-	(333)	(333)
Depreciation	(10)	(16,092)	(16,102)
As at 30 November 2025	**561**	**147,864**	**148,425**

Lease Liabilities	Equipment £'000	Land and Buildings £'000	Total £'000
At 1 December 2024	-	321,162	321,162
Current year additions	571	13,869	14,440
Disposals	-	(743)	(743)
Lease modifications	-	13,462	13,462
Interest expense	15	34,835	34,850
Repayment of lease liabilities	-	(51,710)	(51,710)
As at 30 November 2025	**586**	**330,875**	**331,461**
Lease liabilities			
Current	23	20,877	20,900
Non-current	563	309,998	310,561
Total	**586**	**330,875**	**331,461**

The Company recognised net impairment charge of £333k (2024: £939k net impairment reversal) against right-of-use assets.

11. Leases (continued)

The Income Statement shows the following amounts relating to leases:

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Depreciation charge of right-of-use assets	16,102	17,213
Net impairment charge/(reversal) on right-of-use assets	333	(939)
Charge to operating profit	**16,435**	**16,274**
Interest expense	34,850	32,880
Interest income	(486)	(396)
Charge to profit before taxation	**50,799**	**48,758**

The Company also acts as a lessor and has classified certain sub-leases as finance leases, because the sub-lease is for the whole or substantially all of the remaining term of the head lease held by the Company.

The following table sets out the maturity analysis of lease receivables, showing the undiscounted lease receipts to be received after the reporting date.

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Less than one year	735	502
One to five years	2,948	2,010
More than five years	5,976	2,745
Total undiscounted lease receipts	**9,659**	**5,257**
This comprises of:		
Unearned finance income	5,349	2,500
Net investment in the lease	4,310	2,757
	9,659	**5,257**

Lease receivables included in the balance sheet:

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Current	150	173
Non-current	4,160	2,584
	4,310	**2,757**

Amounts recognised in the Statement of Comprehensive Income for lease contracts where the Company acts as lessor:

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Finance lease – finance income on the net investment in the lease	486	396
	486	**396**

12. Investments

	Year ended 30 November 2025	Year ended 30 November 2024
Net book value:	**£'000**	**£'000**
Investments in subsidiary companies	161,946	161,953
	161,946	**161,953**
