NEWMARK

EXECUTIVE SUMMARY

NEWMARK

The Grange
Service Charge Budget
Year Ending 24 March 2026

Newmark Gerald Eve LLP are committed to delivering a high quality service to the properties that we manage. Our aim is to provide service that are value for money, fit for purpose and adopt industry best practice standards.

This budget has been prepared having regard to the principles of good estate management and with regard to the RICS Professional Standard for Service Charges for Commercial Property. It takes into account the level of service and maintenance required to provide tenants with well presented common areas, provisions for any repairs issues required as well as general anticipated expenditure for the year.

The budget for this year and comparison to prior year is:

YEAR ENDING	24 March 2026	£	695,823
YEAR ENDING	25th March 2025	£	673,186
VARIANCE	3.36%	£	22,637

The Grange is an office building in the grounds of the former Bank of England Sports Centre in Roehampton. The grounds and Sports Centre are let to All England Lawn Tennis Group (AELTG).

The Grange building is VAT elected but the remainder of the property is not VAT elected.

All costs which need to be recharged to AELTG are therefore charged gross and included in Schedule B (AELTC Common Parts). All other costs are shown net.
There are three other Schedules which relate to The Grange only.

Schedule A is The Grange Common Parts
Schedule B is AELTG Common Parts (Gross)
Schedule C is South Wing and relates to costs for the common parts of the South Wing only
Schedule D is Gas Charges (this excludes IFF as there is no gas in their demise)

Demised electricity charges are shown as separate on account charges and are not included in the service charge itself, other than electricity for the common parts. These charges have been estimated based on historic consumption and will also be reconciled annually according to actual metered consumption.

The new budget is broadly in line with the previous budget after allowing for inflation and National Insurance and Living Wage increases.

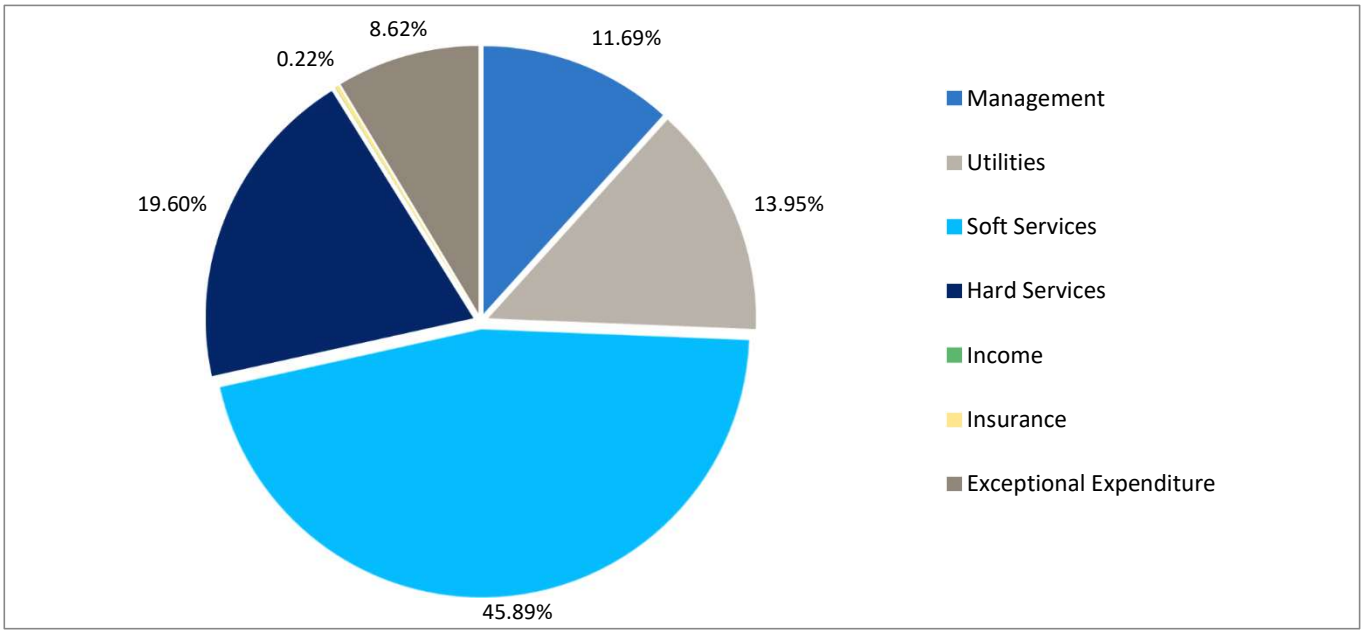

An allowance of £60,000 has been made in Project Works which is a contribution to installing new edge protection to the roof as the existing railings are no longer in a condition to allow safe access. The landlord has agreed to cover the remainder of the cost of this work.

POLICIES

Service Charge Management & Accounting Principles

Not for profit

The service charge accounts are managed for the benefit of all Tenants on a not-for-profit basis.

On account demands and reconciliation

At the year end, on-account income received and actual expenditure incurred are reconciled. Each Tenant's on-account contribution will be adjusted to reflect the due proportion of the actual expenditure incurred and balancing charges or credits are issued accordingly.

Apportionment

The service charge costs are apportioned in line with your lease. On-account service charges are demanded from all Tenants (and from the Landlord in relation to void units) throughout the year based on the budgeted expenditure.

Empty units and concessions granted to Tenants

Where appropriate, costs are apportioned on a daily basis and for the avoidance of doubt it is confirmed that the Landlord covers an appropriate proportion of the service charge expenditure in respect of vacant parts and any form of concessions agreed with tenants.

Where a tenant has a fixed charge contribution, the Landlord will be liable for the any shortfall related to the unit which is calculated on a daily basis for when the tenant was in occupation.

Banking

All service charge funds held by Newmark are in a dedicated client account administered at property level.

Service procurement

Our internal approval process evaluates a service provider's operational potential, health & safety awareness, competence and compliancy, environmental policies and financial soundness.

VAT

The Landlord has elected to waive the exemption from Value Added Tax (VAT) on the building (also known as an Option to Tax).Therefore all service charge expenditure and service charge income is shown exclusive of VAT. VAT will be charged at the appropriate rate on all service charge payments demanded/invoiced by the landlord.

Core Principles

Our core principles in delivery of our contract management policy are:

- Adhere with the RICS Service Charge Code of Best Practice & Rules of Conduct
- Comply with all relevant health and safety ("H&S") legislation
- Commitment to an open and transparent procurement process designed to ensure that we obtain best value for money for our clients and their tenants/customers

ABOUT NEWMARK

We transform untapped potential into limitless opportunity.

At Newmark, we don't just adapt to what our partners need— we adapt to what the future demands. Since 1929, we've faced forward, predicting change and pioneering ideas. Almost a century later, the same strategic sense and audacious thinking still guide our approach. Today our integrated platform delivers seamlessly
connected services tailored to every type of client, from owners to occupiers, investors to founders, and growing startups to leading companies.

Tapping into smart tech and smarter people, Newmark brings ingenuity to every exchange and transparency to every relationship.
We think outside of boxes, buildings and business lines, delivering
a global perspective and a nimble approach. From reimagining spaces to engineering solutions, we have the vision to see what's next and the tenacity to get there first.
