Strategic report

The directors present their Strategic Report for the Company for the 52-week period ended 28 December 2025.

Business review and future developments

Principal activities:

The principal activity of Tenpin Limited (the "company", "Tenpin") comprises the operation of tenpin bowling centres. At the period end the company operated 57 (2024: 53) sites which included the signing of new leases and complete build of sites in Dewsbury, Harpurhey, Redditch and Clydebank.

The company's immediate parent is TEG Holdings Limited, and it is included in the consolidated financial statements prepared by TPE Parent Limited (the "group") while the ultimate parent of the Company is Trive Capital Management LLC ("Trive").

Company result:

The comparative results are for the 52-week period ending 29 December 2024.

Revenue increased by £4,452k from £142,032k in the 52 weeks ended 29 December 2024 to £146,484k in the 52 weeks ended 28 December 2025, a 3.1% increase in total sales (2024: 8.8% increase) or a 0.2% decrease (2024: 0.7% increase) on a like-for-like basis.

Gross profit increased by £582k from £92,810k in the 52 weeks ended 29 December 2024 to £93,392k in the 52 weeks ended 28 December 2025, while the gross profit margin decreased by 1.58% points from 65.34% to 63.76%.

Profit before taxation decreased by £8,441k from £27,447k in the 52 weeks ended 29 December 2024 to £19,006k in the 52 weeks ended 28 December 2025. This is as a result of the gross profit margin decrease above and higher administrative and finance costs incurred during the period.

There is a tax charge for the 52-week period ended 28 December 2025 of £4,607k, which is a £1,846k increase from a charge of £2,761k in the 52-week period ended 29 December 2024. The effective tax rate differs from the statutory tax rate of 25%. The principal differences arise because of timing differences between depreciation and capital allowances and from permanent differences, as the majority of exceptional costs and share-based payments are not deductible. Profit after tax has decreased by £10,287k from £24,686k for the 52 weeks ended 29 December 2024 to £14,399k for the 52 weeks ended 28 December 2025.

The Company has net assets of £80,226k as at 28 December 2025, (£2,439k) down on the £82,665k as at 29 December 2024. Net current liabilities amounted to (£11,130k) as at 28 December 2025, (£8,208k) up on the (£3,221k) net current liabilities as at 29 December 2024. Cash and cash equivalents amounted to £10,996k as at 28 December 2025, (£587k) down on the £11,583k as at 29 December 2024. Finance lease debt amounted to £215,115k as at 28 December 2025, (£4,330k) lower than the £219,445k as at 29 December 2024 due to repayments net of new leases in the period.

Future outlook:

The financial statements are prepared on a going concern basis, which the Directors believe to be appropriate based on the review carried out and explained in the going concern section on pages 11-12.

PRINCIPAL RISKS AND UNCERTAINTIES

The business faces a number of risks on an ongoing basis. The Directors confirm that a robust assessment of the principal risks facing the Company, including emerging risks, and those that would threaten its business model, future performance, solvency or liquidity, has been carried out.

Economic climate

- The business is subject to changes in economic conditions such as those arising from recession, geo-political instability, volatile or unpredictable energy costs or high inflation which could reduce customer demand and thus the revenue generated by the business. Fluctuations in currency exchange rates, interest rates, business and utility rates and employment costs all impact on the profitability of the business.

Operational

- The Company's centres have high footfall and usage, in particular at peak times. There is a risk that without the right level of ongoing investment, the quality of the customer experience declines and the likelihood of return visits reduces.

Regulatory changes

- The Company operates licensed premises for the sale of food, alcohol and gaming. New, changed or reinterpreted laws and regulations could adversely impact the operation of the business.

Business interruption

- A major incident causing a failure or unavailability of operational and/or IT infrastructure resulting from a cyber-attack or terrorism could impact the ability to continue trading. Bookings are generally placed online and supply chains are essential for food and drink sales, both of which could be impacted.

Major supplier failure

- Sudden failure of a key supplier or significant reduction in access to key products could impact the ability to offer customers the expected level of consumer experience and incur higher costs from obtaining replacement products. There is potential for a supplier to be impacted by global tariffs if a supplier has significant imports or exports which are affected.

Operational - Allergens

- High profile incidents have arisen in the leisure industry relating to allergens in food products from inadequate awareness, communication and display of allergen items included in the menus which could both damage customer demand and incur significant costs if fines or penalties were imposed.

Climate risk

- The bowling industry is significantly impacted by the weather, with demand benefitting from periods of cold and rain but reduced with warmer temperatures and sunshine. Significant changes to the climate leading to a shift in the balance of weather could impact the customer demand.

Covenant, liquidity and cash flow risk

- The Company, as part of its Unitranche and RCF facilities, has to comply with several financial covenants that must be passed in order for the facilities to remain available. These include minimum liquidity and a minimum ratio of consolidated cash flow to consolidated debt service (see note 14 for details). The Company maintains careful control over cash flow by updating and monitoring forecasts on a frequent basis to ensure continued compliance with these covenants. The covenants are reported to the lenders either monthly or quarterly.

STAKEHOLDER ENGAGEMENT

Board decision making

Section 172 of the Companies Act 2006 ("s.172") imposes a general duty on directors to act in the way they consider, in good faith, would be most likely to promote the success of the company for the benefit of its stakeholders. Our goal is to drive value for employees, customers, and business partners alike. Ultimate responsibility for the Company's decision-making sits with the Directors of the Group. The Directors believe that balancing the interests of stakeholders with our corporate purpose and the desire to maintain high standards of ethical conduct is embedded in the way we do business. The below sets out who we consider to be our key stakeholders, what their interests are, some key engagement areas in 2025, and examples of how our stakeholders' interests influence the way we do business.

As required by section 172 of the UK Companies Act 2006, the Directors have acted to promote the success of the Company for the benefit of its stakeholders. In meeting this responsibility during the period, the Directors have had regard, *amongst other matters, to:*

- the likely consequences of any decisions in the long-term
- the interests of the Company's employees
- *the need to foster the Company's business relationships with suppliers, customers and others*
- the impact of the Company's operations on the community and environment
- the Company's reputation for high standards of business conduct
- *the need to act fairly as between members of the Company*
- the current economic and political climate

The below sets out who we consider to be our key stakeholders, what their interests are, some key engagement areas in 2025, and examples of how our stakeholders' interests influence the way we do business.

OUR PEOPLE	OUR CUSTOMERS	OUR SUPPLIERS & PARTNERS	OUR ENVIRONMENT
Our employees are the dedicated people who create the fun, entertaining environments, to ensure our customers have a great time and that our business thrives.	Our customers are the people who visit our centres looking for a range of entertainment at great value for money in a safe family environment.	Our strategic partners help us provide the latest in bowling and gaming technology, as well as developing our food and drink offering, to keep our entertainment experience enjoyable for all of our customers.	The wider community and environment are impacted by the business decisions we take.
ENGAGEMENT IS IMPORTANT			
Great customer experiences start with great employees. We engage regularly with our team, to understand their opinions *and to train and develop their* skills. We aim to provide a consistent and open culture across the Group, to attract and retain great talent, aligning these with the purpose, values and strategy set by the Board.	We listen to our customers' feedback so we can continually improve their *experiences in our* centres. We are continually developing our products, to remain relevant and to appeal to more customers.	We have strong relationships with our suppliers, to ensure that our objectives are aligned in delivering a great service to our *customers at great value for* money.	We acknowledge that our business can have a wider impact beyond our direct stakeholders and want to *ensure that we are having a* positive impact on local communities and minimising any environmental impacts.

HOW WE ENGAGE

We engaged with our employees through:	We connected with our customers through:	We liaise with suppliers, landlords and other parties:	We are conscious of our local community and wider environment in the decisions we take:
• Company-wide electronic communication platform Yapster • Access to discounts through Tenpin Treats and bonus payments through quarterly and annual plans • The Directors reviewed a plan for the creation of a long-term management incentive plan for the senior executives • 'Talent Talk' appraisals and succession planning • Confidential and anonymous tools to escalate concerns and protect employees and customers	• Social media and CRM • Regular feedback to ensure standards are being met • Meet and Greet at the entrance to support customer journey	• Maintaining loyalty to suppliers • Long-term partnerships to provide surety of supply • Setting a clear ethical trading stance and monitoring suppliers	• 100% renewable electricity supply • Investment in energy-saving technologies • Ongoing charity partnership • Enhanced waste separation at site to reduce landfill • Solar panels on the roofs at a number of sites

KEY:

1	A first-class customer experience
2	Digitally enabled
3	In high-quality centres
4	With increasing UK coverage

SOCIAL

Taking care of our people

FY25 has been a year with challenges such as labour cost increases and recruitment difficulties, but also successes such as the opening of four new centres, to which our people have been a huge contributor. We continue to invest in our processes and policies to ensure that they represent best practice in the industry, with digital training and onboarding tools evolving to give our workforce everything they need to be successful.

CULTURES AND VALUES

Our people are at the heart of everything we do, and our success is dependent on them. As our growth continues, the happiness and wellbeing of our employees is key. We will continue to focus on employee engagement, to enhance our culture and deliver our long-term goals.

In September, we had our company-wide annual Tenpin Cup football tournament. Every site in the estate was represented, with hundreds of players getting together at Star City Goals for a day of competition.

DIVERSITY AND INCLUSION

Diversity and inclusion are central to operating our business. As a leisure business that welcomes over 8 million customers each year, it is important that our centre teams represent the communities that they serve. Tenpin is a welcoming and inclusive environment for everyone.

The Group's policy on diversity is that no individual should be discriminated against on the grounds of race, colour, ethnicity, nationality, religious belief, political affiliation, sexual orientation, gender, gender identity, age or disability.

GENDER PAY GAP

We are confident that we will continue to progress towards a gender-balanced workforce. There are a number of steps we are taking to improve our gender balance that we expect to positively impact our gender pay gap, including:

- Reviewing our partnerships to attract a diverse and exciting workforce
- Using our networks to share our people's stories and ideas, celebrate differences and showcase our amazing talent
- Through the use of technology and gamification, enabling remote learning, virtual networking, job evaluation schemes and grading structures

BOARD DECISION MAKING

In compliance with Section 172(1) of the Companies Act 2006 ('s.172'), the Board of Directors, both individually and together, acted in a way that they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its stakeholders.

SECR requirements

In accordance with the Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013 and the Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018, the Company is required to report its annual greenhouse gas emissions, energy consumption and related energy efficiency actions. The following disclosures have been prepared to meet these Streamlined Energy and Carbon Reporting ("SECR") requirements.

Emission Type	kWh			tCO2e tonnes (Market-Based)		
	Previous Year (FY24)	Current Year (FY25)	Var. (%)	Previous Year (FY24)	Current Year (FY25)	Var. (%)

Emission reporting notes

- Our methodology has been based on the principles of the Greenhouse Gas Protocol, taking account of the 2015 amendment which sets out a 'dual reporting' methodology for the reporting of Scope 2 emissions. In the 'Total Footprint' summary above, purchased electricity is reported using a location-based method.
- This report includes emissions under Scope 1 and 2, except where stated, and limited emissions under Scope 3 (fuel used in personal/hire cars for business purposes).
- Energy use and emissions figures relate to our UK operation (including offshore energy and emissions) only.
- Conversion factors for UK electricity (location-based methodology), gas and other emissions are those published by the Department for Energy Security and Net Zero (DESNZ) for 2025.
- Conversion factors for UK electricity (market-based methodology) are published on the fuel mix disclosures on each supplier's website.
- Missing electricity and gas readings have been estimated based on available data or a benchmark calculation based on floor size.

Statement of exclusions

There are no known exclusions. Energy efficiency improvements are a core focus for the Company to reduce its climate impact. In the period covered by the report, the Company continued to procure 100% renewable electricity contracts as part of an ongoing commitment to reducing emissions.

Solar arrays are installed on the roofs of six centres.

KEY PERFORMANCE INDICATORS

FINANCIAL

ADJUSTED PROFIT BEFORE TAX

2025	**£19,006k**
2024	£27,447k
2023	£30,641k

Definition and how we performed

The Company's underlying operational performance is measured using this metric, calculated as profit before tax less exceptional items and impairment. With the transition to IFRS 16: Leases, depreciation and finance costs have a more significant impact on profitability and so this metric becomes more important in particular when making property decisions.

1, 2, 3, 4, A, B, C

Target and link to strategy:

Total sales are driven by improving the revenue from our existing estate, through driving repeat customers and development of offering, with the strong revenue from new sites.

LIKE-FOR-LIKE SALES

2025	**(0.2%)**
2024	0.7%
2023	3.4%

Definition and how we performed

This is a critical measure of underlying growth in the business. The Company *reported a -0.2% decrease in like-for-like sales versus 2024.*

Consistent like-for-like sales growth demonstrates the success of the growth strategy. It allows the Company to defray its fixed costs over a broader sales base which enables growth in profitability.

1, 2, 3, 4, A, B, C

Target and link to strategy:

Like-for-like sales is driven by investing in new products, growing ancillary sales, improving service, enhancing our digital integration and ensuring that the core bowling product is well invested across all of our centres. Focus on the four pillars of the strategy will generate like-for-like sales growth.

RETURN ON CAPITAL EMPLOYED ('ROCE')

2025	**9.8%**
2024	12.4%
2023	12.8%

Definition and how we performed

The Company's ROCE is operating profit as a percentage of total capital employed which consists of non-current assets and current assets less current liabilities.

1, 2, 3, 4, A, B, C

Target and link to strategy:

Disciplined deployment of capital investments in high-returning projects is key to driving shareholder return. The target is to maintain ROCE above 9.5% in the medium to long term which represents a return over and above the average cost of capital employed in the business and demonstrates delivery of additional shareholder value.

STRATEGIC OBJECTIVES

1 A FIRST-CLASS CUSTOMER EXPERIENCE
2 DIGITALLY ENABLED
3 IN HIGH-QUALITY CENTRES
4 WITH INCREASING UK COVERAGE

GROWTH DRIVERS

A – MORE CUSTOMERS
B – VISITING MORE OFTEN
C – WITH HIGHER SPEND

OPERATIONAL

REVENUE PER HEAD ('RPH')

2025	**£18.35**
2024	£16.51
2023	£15.31

Definition and how we performed

RPH is the average revenue by customer per visit. This is the total revenue per centre divided by the footfall. RPH has increased by 11.1% since last period which reflects customers' increased spend on food, drink and increased engagement in ancillary activities.

1, 2, 3, 4, C

Target and link to strategy:

Investment in a first-class customer experience is aimed at increasing the dwell time and offering more products to customers to encourage them to spend more. Being digitally enabled enhances the overall customer journey and ease of ordering additional services such as food and beverage whilst maintaining high-quality centres encourages customers to increase their dwell time.

FOOTFALL

2025	**8.5m**
2024	8.6m
2023	8.5m

Definition and how we performed

Footfall is the measure of the number of unique bowling sessions played. This is a crucial measure of overall customer demand and is carefully managed by centre to ensure that bowling capacity and footfall are balanced to optimise revenues.

1, **2, 3, 4,** A, B

Target and link to strategy:

Due to our fixed bowling asset base, driving higher footfall allows us to better utilise our assets, driving revenue. Higher footfall subsequently drives ancillary spend.

GAMES PLAYED PER STOP ('GPS')

2025	**1,305**
2024	1,230
2023	962

Definition and how we performed

GPS looks at the number of games played that are not interrupted by a breakdown. This is a 6% increase to 1,305 (2024: 1,230) for the period. This increase is a result of the investment in pins and strings technology along with proactive preventive maintenance scheduling improving the reliability of our equipment.

1, 2, 3, 4, A, B

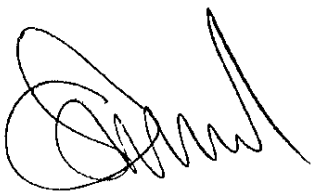

Target and link to strategy:

Investment in Pins & Strings technology has transformed the customer experience with less interruption from breakdowns and a more energy efficient smoother playing experience. It has significantly reduced costs and increased the capacity of our centres, contributing to an increase in yield and profitability.

GROWTH DRIVERS
A – MORE CUSTOMERS
B – VISITING MORE OFTEN
C – WITH HIGHER SPEND

Approved by the board, and signed by order of the board

11 September 2026

George Sheppard – Company Secretary

Directors' report

The directors' present their annual report on the affairs of the company, together with the audited financial statements for the 52 weeks ended 28 December 2025.

Strategic Report

The Company has chosen, in accordance with section 414C(11) of the Companies Act 2006, to set out in the Strategic Report certain information required by Schedule 7 to the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 to be contained in the Directors' Report. The information incorporated into this Directors' Report by cross-reference relates to future developments, employee engagement, Streamlined Energy and Carbon Reporting ("SECR"), financial risk management and the statement summarising how the Directors have had regard to the need to foster the Company's business relationships.

Results and dividends

The results for the 52 weeks ended 28 December 2025 are set out in the statement of comprehensive income. The profit after taxation for the period was £14,399k (2024: £24,686k). An interim dividend was declared during the period for £17,458k (2024: £15,940k). The Directors do not recommend the payment of a final ordinary dividend.

Directors

The directors of Tenpin Limited, who served throughout the period and up to the date of signing the financial statements unless otherwise stated, were as follows:

Graham Blackwell – (resigned 10 June 2026)
George Sheppard
Bret Astle
Rachel Braybrook
Mark Willis - (appointed 19 August 2025)

The future developments of the company are disclosed under the Strategic Report.

Directors' indemnity

The Company's Articles provide, subject to the provisions of UK legislation, an indemnity for Directors and officers of the Company and the Group in respect of liabilities they may incur in the discharge of their duties or in the exercise of their powers.

The directors are all covered by a qualifying Directors' and Officers' indemnity insurance policy maintained by the Company with a qualifying third-party indemnity insurance company which was maintained throughout the financial period and is still in place as at the date of the approval of these financial statements.

Employment policies

The Company is committed to the principle of equal opportunity in employment. The Company recruits and selects applicants for employment based solely on a person's qualifications and suitability for the position, whilst bearing in mind equality and diversity. It is the Company's policy to recruit the most capable person available for each position. The Company recognises the need to treat all employees honestly and fairly. The Company is committed to ensuring that its employees feel respected and valued and are able to fulfil their potential and recognises that the success of the business relies on their skill and dedication.

Applications for employment by disabled persons are always fully considered bearing in mind the aptitudes of the applicant concerned. In the event of members of staff becoming disabled, efforts are made to ensure that their employment with the

Company continues and that appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of disabled persons should as far as possible be identical with that of other employees.

Employee consultation

The Company attaches importance to good communications and relations with employees. Information that is or may be relevant to employees in the performance of their duties is circulated to them on a regular basis, or immediately if it requires their immediate attention. There is regular consultation with employees through meetings or other lines of communication, so that their views are known and can be taken into account in making decisions on matters that will or may affect them. Employee participation in their bowling venue's performance is encouraged through various bonus and incentive schemes and there is regular communication with all employees on the performance of their bowling venue or central function and on the financial and economic factors affecting the overall performance of the Company.

Principal risks

The Directors have set out the Company's principal risks and uncertainties within the Strategic Report on page 3. This section forms part of the annual report and is incorporated here by reference. No additional principal risks are noted beyond those disclosed in the Strategic Report.

Independent Auditors and disclosure of information to auditors

PricewaterhouseCoopers LLP are the auditors of Tenpin Limited.

For each of the persons who were directors at the time this report was prepared, the following applies:

(i) so far as the directors are aware, there is no relevant audit information (i.e. information needed by the company's auditors in connection with preparing their report) of which the company's auditors are unaware; and

(ii) the directors have taken all steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

PricewaterhouseCoopers LLP have indicated their willingness to continue in office and a resolution to reappoint them as auditors will be proposed at the forthcoming Annual General Meeting.

Going concern & Post Balance Sheet events

The going concern of the Company is dependent on its performance, as the main trading entity of the Group, as well as the financing it receives from other Group companies through its intercompany balances. In assessing the going concern position of the Company's Financial Statements for the 52-week period ended 28 December 2025, the Company considered a base case scenario and a plausible downside scenario at Group level. In modelling these scenarios, the Company has considered the following:

- Liquidity – the Group's cash balances on hand as well as the availability of the £15.0m RCF with Barclays.
- Cash flow – the cash generated by operations, the level of spend on capital projects, debt servicing costs and the utilisation of the RCF facility.
- Covenant calculations – the Unitranche and RCF facilities contain covenants around the Group's leverage, cash flow and minimum liquidity levels which must be passed.
- Business activities and principal risks – the Group's plans around the expansion of the estate as well as refurbishments to the current estate while assessing the impact of the principal risks facing the Company as explained on page 3.

Base Case

The base case consists of the Group's FY26 budget, plus a 2027 forecast. This case was prepared with the following key assumptions reflected:

- Like-for-like sales growth versus FY25
- Annualised sales for the new sites opened in FY25 (Dewsbury, Harpurhey, Redditch and Clydebank)
- Labour inflation and the increases from the National Living Wage and National Insurance are included
- *Cost inflation is reflected in the operating and administrative costs*
- Capital spend to build eight new sites plus the contribution to trade for the period they are open in the year
- Refurbishment capital spend and the expected return on this investment in trading cash flows
- Normal levels of capital cash flow to maintain the sites
- Debt servicing costs being the interest on the Unitranche and RCF facilities and the quarterly repayments of the Unitranche facility

The Group is cash positive, and all covenants are passed.

Downside case

The downside case takes the base case and flexes the assumptions for severe but plausible impacts. These are summarised as follows:

- 2026 revenues are reduced by 15% on a total sales basis against the base case, resulting in revenue that is 3.5% lower than FY25. The decrease was based on the removal of revenue for new sites, refurbishments and pricing that was factored into the FY26 budget, followed by a further decline factoring in unfavourable weather patterns, such as unusually warm spring and autumn months.
- All fixed costs from the base case are maintained in the downside case, except for the removal of bonus payments.
- Mitigation on variable costs as cost of sales, labour and operating costs are included as these can be controlled by the Group, while factoring in that some operating costs cannot be flexed for sudden unfavourable changes in the weather.
- Maintenance capital, new site spend and refurbishment capital are halted as this is not committed until the leases are signed or closer to the times when the refurbishment projects are to start. Spend on projects that have commenced, or leases that have been signed in 2026, has been kept in.

The scenario reflects the full payment of the quarterly loan repayments and the interest payments. All the mitigating actions taken allow the Company to remain cash positive, with all covenants passed.

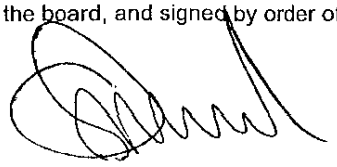

Taking the above and the principal risks faced by the Company into consideration, the Directors are satisfied that the Company has adequate resources to continue in operation for the foreseeable future, a period of at least 12 months from the date of this report. Furthermore, TPE Parent Limited, which indirectly owns 100% of the Company, issued a letter of support stating that all necessary measures are undertaken such that the Company will have sufficient funds available to allow it to meet its financial obligations as they fall due. This letter of support is valid until 11 December 2027. Accordingly, the Company continues to adopt the going concern basis in preparing these Financial Statements.

Post Balance Sheet Events

Subsequent to the balance sheet date, and prior to signing the financial statements, the Group entered into two new property leases in February 2026, one in Blackpool and one in Wakefield, and Peterborough in September 2026 (see note 21). No further leases had been agreed and no new centre acquisitions had been made.

Approved by the board, and signed by order of the board

11 September 2026

George Sheppard – Company Secretary

Corporate Governance Report – Wates Principles

Purpose and Leadership

The Board is responsible for the long-term success of the Company and provides clear leadership and strategic direction. The Company's purpose, values and culture are embedded through leadership communications, operational practices and employee engagement initiatives across the business.

The Board sets the strategic priorities, approves major investments, monitors operational and financial performance, and ensures that risks are appropriately managed in support of sustainable long-term value creation.

Board Composition

The Board comprises executive directors only, including the Chief Executive Officer, Chief Operating Officer, Chief Financial Officer and other senior leaders. Directors bring relevant industry, operational and financial expertise to the Board.

Given the Company's ownership structure as a wholly owned subsidiary of a US private equity group, the Board considers its current composition appropriate. Oversight and challenge are provided through:

- active involvement of the directors;
- monthly performance reviews;
- strategic oversight by the UK parent company's board;
- external audit and professional advisers.

Director Responsibilities

The Board has established clear roles and responsibilities for directors. Matters reserved for the Board include strategy, major capital decisions, risk management, financial oversight and key operational matters.

The Board met regularly throughout the year, with all directors attending as required. Meetings covered strategy, performance, risk, people matters and operational updates.

An annual internal Board evaluation was undertaken, concluding that the Board operates effectively and that directors possess the necessary skills and experience to discharge their responsibilities.

Opportunity and Risk

The Board is responsible for identifying and managing the Company's principal risks and ensuring that appropriate internal control systems are in place. These systems are designed to manage, rather than eliminate, the risk of failure to achieve business objectives.

Principal risks and mitigation strategies are reviewed regularly and reported to the parent company. Oversight of financial reporting, internal controls and external audit is performed by the Board as a whole, supported by the Chief Financial Officer, Group Finance and external auditors.

Remuneration

Executive remuneration is determined by the Board of Directors. Remuneration policies are designed to attract and retain high-quality leadership and align incentives with long-term value creation.

The Company does not operate separate Board committees (such as Audit, Nomination or Remuneration Committees), reflecting its ownership structure and the direct oversight exercised by the parent company.

Stakeholder Relationships and Engagement

The Board recognises the importance of effective engagement with employees, customers, suppliers and communities. Engagement activities during the year included:

- regular employee communications;
- supplier reviews;
- customer feedback processes;
- consideration of stakeholder interests in major decisions.

The Board has had regard to the matters set out in section 172(1) of the Companies Act 2006. The Company's Section 172 Statement, including details of how the Board has engaged with stakeholders, is included in the Strategic Report.

Compliance Statement

The Company has applied the Wates Corporate Governance Principles for Large Private Companies in accordance with the Companies (Miscellaneous Reporting) Regulations 2018. The Board considers that the governance arrangements described above are appropriate given the Company's size, ownership structure and operational model.

The Directors have had regard to the matters set out in section 172(1) of the Companies Act 2006 when performing their duties and promoting the success of the Company. Information on how the Directors have engaged with employees, customers, suppliers and other stakeholders, and how regard has been given to their interests in key decision-making, is included within the Strategic Report under "Stakeholder Engagement".

The Company's corporate governance approach, including how it has applied the Wates Corporate Governance Principles for Large Private Companies, is set out in this Corporate Governance Report and has not been separately published on the Company's website.

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the statement of directors' responsibilities in respect of the financial statements and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law).

Under company law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 101 have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

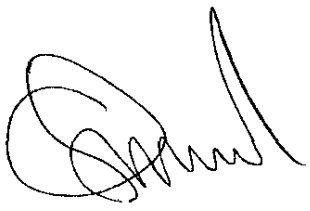

Directors' confirmations

In the case of each director in office at the date the directors' report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

George Sheppard – Company Secretary

Independent auditors' report to the members of Tenpin Limited

Report on the audit of the financial statements

Opinion

In our opinion, Tenpin Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 28 December 2025 and of its profit for the 52 week period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 101 "Reduced Disclosure Framework", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual report and financial statements (the "Annual Report"), which comprise:

- the Statement of financial position as at 28 December 2025;
- the Statement of comprehensive income for the period then ended;
- the Statement of changes in equity for the period then ended;
- the Statement of accounting policies; and
- the notes to the financial statements.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to other entities of public interest and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided.

We have provided no non-audit services to the company or its controlled undertakings in the period under audit.

Independent auditors' report to the members of Tenpin Limited (continued)

Conclusions relating to going concern

Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

- Reviewing the cash flow forecasts and budgets covering a period of at least 12 months from the date of approval of the financial statements;
- Assessing liquidity, covenant compliance, and financing arrangements, as well as reviewing board minutes for indications of financial difficulty;
- Assessing management's severe but plausible downside scenario, including challenging key assumptions to support the company's liquidity position, covenant compliance, and ability to continue as a going concern; and
- Reviewing the adequacy, accuracy and completeness of the going concern disclosures included in the financial statements to ensure they were consistent with management's assessment and appropriately reflected the company's circumstances.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' Report, we also considered whether the disclosures required by the Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Independent auditors' report to the members of Tenpin Limited (continued)

Strategic report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' Report for the period ended 28 December 2025 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to employment law, health and safety regulations and GDPR, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as Companies Act 2006 and the UK tax legislation. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to manipulate financial results and potential management bias in accounting estimates. Audit procedures performed by the engagement team included:

Independent auditors' report to the members of Tenpin Limited (continued)

- Discussions with management, including consideration of known or suspected instances of non-compliance with laws and regulations and fraud;
- Identifying and testing the validity of journal entries, in particular any journal entries posted with unusual account combinations;
- Reviewing disclosures for accounting estimates; and
- Reviewing minutes of Board meetings

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company or returns adequate for our audit have not been received from branches not visited by us; or
- the company's financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made.

We have no exceptions to report arising from this responsibility.

Statement of Accounting Policies

General information

Tenpin Limited, a private company limited by shares incorporated and domiciled in the United Kingdom and registered in England and Wales is a subsidiary of the ultimate parent, Trive Capital Management LLC. The address of the registered office of Tenpin Limited is Aragon House, University Way, Cranfield Technology Park, Cranfield, Bedford, MK43 0EQ. The principal activity of the company comprises the operation of tenpin bowling centres. The company reports for the 52 weeks ended 28 December 2025 (2024: 52 weeks ended 29 December 2024). The 52-week period (2024: 52-week period) is determined with each week ending on a Sunday and thus the period end date will vary each period.

Statement of compliance

The financial statements have been prepared in accordance with United Kingdom Accounting Standards, including FRS 101 "Reduced Disclosure Framework", and applicable law. Accordingly, the financial statements are not prepared in accordance with full IFRS and do not include an explicit and unreserved statement of compliance with IFRS as described in IAS 1.16. The Company has applied the recognition and measurement requirements of IFRS as adopted in the UK, subject to the disclosure exemptions permitted by FRS 101.

a) IAS 7, '*Statement of cash flows*';
b) The requirements in IAS 24, 'Related party disclosures' to disclose related party transactions entered into between two or more members of a group
c) IFRS 7, 'Financial instruments: Disclosures'
d) IFRS 13 paragraphs 91 to 99, 'Fair value measurement'
e) IAS 1, 134-136 (capital management disclosures)
f) Paragraphs 30 and 31 of IAS 8, 'Accounting policies, changes in accounting estimates and errors' (*requirement for the disclosure of information when an entity has not applied* a new IFRS that has been issued but is not yet effective).
g) IAS 36 impairment of assets key assumption disclosures
h) IAS 1 paragraphs 38A–38D, 'Presentation of comparative information'
i) IFRS 2 paragraphs 45(b), 46–52, 'Share-based payment disclosures'
j) IAS 24 paragraph 17, 'Related party disclosures'
k) IAS 36 paragraphs 134(d)–(f) and 135(c)–(e), 'Impairment of assets disclosures'
l) IFRS 15 paragraphs 113(a), 114, 115, 118, 120–127, 129, 'Revenue from contracts with customers disclosures'

Basis of preparation

The comparative financial information is for Tenpin Limited for the 52 weeks ended 29 December 2024. The accounting policies which follow set out those policies which apply in preparing the financial statements for the 52 weeks ended 28 December 2025 and have been applied consistently, to all periods presented in these financial statements.

The ultimate parent of the company is Trive Capital Management LLC. The company is exempt from producing consolidated financial statements under section 400 of the Companies Act 2006. The financial statements have been prepared on the going concern basis as explained in the Directors report on page 11-12. The principal accounting policies, which have been applied consistently throughout the period, are set out below.

Use of judgements and estimates

The preparation of financial statements requires the use of accounting estimates and requires management to exercise judgement in the process of applying the company's accounting policies.

Accounting estimates are based on historical experience and various other factors, including expectations of future events that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying values of assets and liabilities that are not readily available from other sources.

Actual results may differ from these estimates and the estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both the current and future periods. The following assets and liabilities or areas have been affected by these estimates and judgements:

Estimate: Recoverable amount of goodwill

Determining the recoverable amount involves estimation including that of value in use and residual value. The calculation of value in use is based on pre-tax cash flow projections from the financial budgets approved by the Board covering a one-year period and extrapolated by management using an estimated medium-term growth rate for a further two years. Cash flows beyond this three-year period are extrapolated over the life of the lease relating to that centre at the estimated long-term growth rate. The pre-tax discount rate applied to the cash flow projections approximates the Group's weighted average cost of capital, adjusted only to reflect the way in which the market would assess the specific risks associated with the estimated cash flows of the bowling businesses and to exclude any risks that are not relevant to estimated cash flows of the bowling businesses, or for which they have already been adjusted. The effect of varying the key assumptions in the goodwill calculations is presented in note 6.

Sensitivity analysis

Management has performed sensitivity analyses on the key assumptions used in the value-in-use calculations, including forecast EBITDA growth, medium-term and long-term growth rates, and the pre-tax discount rate. Reasonably possible changes in these assumptions, individually or in combination, do not indicate that an impairment would arise. The detailed effect of varying these key assumptions, including the headroom available under each CGU, is presented in note 6.

Estimate: Incremental borrowing rate

The calculation of lease liabilities requires the Company to determine an incremental borrowing rate ('IBR') to discount future minimum lease payments. Judgment is applied in determining the components of the IBR used for each lease including the movement in risk-free rates, the Group's borrowing margin and any lease specific adjustments. The applicable IBR for each lease varies between 2.10% and 13.64% depending on its length of term. To determine the incremental borrowing rate, the Company where possible, uses recent third party financing received by the Group as a starting point otherwise it has obtained borrowing rates from its lender for a range of maturity terms. The same approach has been used for modifications and new leases during the period where a borrowing rate range of between 6.43% and 7.30% has been used depending on the length the lease extension. The IBR is a significant area of estimation, as the Group obtained a range of borrowing rates for differing terms to determine a range of rates for the modifications and new leases in the period. A 1% increase in all of these rates would decrease the value of the right-of-use asset on modification or addition of a new lease by £0.1m, while a 1% decrease in the rates would increase the value by £0.1m.

Exceptional items

These are those significant cost or income items which management judges to be one-off in nature and are not expected to continue to be incurred as part of the regular trading performance of the business. The separate reporting of these per Note 4 helps to provide a better indication of underlying performance.

Investment in Subsidiaries

Investments are stated at cost less any provision for impairment in value.

When considering the potential for any impairment in the investment value, the company assesses the recoverable amount by considering performance forecasts along with market conditions. See note 7 for detail of the carrying amount of investments in subsidiaries.

Leases

The Company assesses whether a contract is, or contains, a lease, at inception of the contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee from the date at which the leased asset becomes available for use by the Company, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low-value assets. For these leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease liabilities are measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable and variable lease payments that depend on an index or a rate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. The lease liability and the right of use asset are subsequently remeasured whenever:

- The lease term has changed, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate.
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

The Company applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'impairment' policy.

As a practical expedient, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Revenue

Revenue is accounted for by identifying the contract with a customer and the particular performance obligations in that contract. The Company's performance obligations represent the total amounts earned from customers from bowling, food, beverage, machines and amusements, together with any other goods and services delivered in the normal course of business, net of VAT. The transaction price is a fixed price set for the goods and services ordered by the customer and payment of the transaction price is due immediately upon the customer booking the goods or services at the centre or call centre, or on the website. The Company is not obliged to provide refunds or returns but all refunds are provided at 100% of the original transaction price paid for the goods or services by the customer. Revenue for food and drink is recognised when the performance obligation, being the transfer of the products to the buyer in exchange for consideration, is

completed. Revenue arising from bowling is recognised when the performance obligation of the customer actually playing is completed. Deposits paid in advance are held on the balance sheet until that time and then recognised as income. Revenue for amusements and machines is recognised when the cash is collected from the amusement machine. The Company sells bundles whereby bowling is offered with food and drink at a discounted price versus if they were sold individually. In accordance with IFRS 15 Revenue from Contracts with Customers, the discount is allocated amongst the products in the bundle based on each product's standalone selling price as a proportion of the sum of the total standalone selling prices of all the products in the bundle. Given the nature of the Company's revenue streams, recognition of revenue is not considered to be a significant area of judgement.

Deferred income

Advance bookings paid for by customers are recognised as deposits and held on the balance sheets as deferred income until the customer redeems their booking which becomes 'paid and played'. It is then transferred from the balance sheet and recognised as revenue in the statement of comprehensive income.

Intangible assets

Goodwill

Goodwill represents the excess of the cost of the acquisition of a subsidiary or business combination over the fair value of the Company's share of the identifiable net assets acquired. Goodwill useful life is indefinite and is carried at cost less impairment, and is tested annually for impairment, or earlier if circumstances indicate that impairment may have occurred. Excess of acquirer's interest in the net fair value of acquiree's identifiable assets, liabilities and contingent liabilities over cost arising on acquisition is recognised immediately in the statement of comprehensive income. Companies Act 2006 requires an intangible asset to be written off over its useful economic life, the company adopts FRS 101 that recognises goodwill which is not amortised and thus there will be a departure between the standard and the law.

Goodwill is not allocated to individual cash-generating units ('CGUs') as the Company considers that the synergies arising from each acquisition benefit the Company as a whole rather than individual centres and monitors goodwill in aggregate for internal purposes. Therefore, for goodwill impairment testing, the CGUs are aggregated into a single group.

Software

Software costs are capitalised and amortised over their estimated useful lives of up to three years on a straight-line basis. All software has been purchased and generated externally.

Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and any impairment in value with property, plant and equipment acquired in a business combination recognised at their fair value. Cost of assets includes acquisition costs net of VAT, as well as other directly attributable costs in bringing the asset into a working condition. Depreciation is calculated so as to write off the cost, less estimated residual value, of each asset on a straight-line basis over its expected useful economic life. The principal useful lives used for this purpose are as follows:

Fixed furnishings	The length of the lease or their estimated useful lives
Freehold land and buildings	40 years
Fixtures, fittings and equipment	Between 3 and 40 years
Amusement machines	4 years

Assets in the course of construction are not depreciated until they are brought into use. As required by IAS 16, property, plant and equipment's expected useful life and residual values are reviewed annually. Residual value is calculated based upon prices prevailing at the date of acquisition.

Impairment of assets

At each reporting date, all financial and non-financial assets are considered for evidence of impairment. If there is an indication of impairment, the Company carries out an impairment test by measuring the asset's recoverable amount, which is the higher of the fair value less costs to sell and the value in use. If this recoverable amount is below the carrying value, an impairment loss is recognised in the statement of comprehensive income and the asset is written down to the recoverable amount.

In assessing value in use, the estimated future cash flows arising from the use of the asset are discounted to their present value using a discount rate which reflects current market assessments of the time value of money and the risks specific to the asset. Impairment of the Company's property, plant and equipment and right of use assets is assessed at the cash-generating unit ('CGU') level being a bowling centre, with goodwill allocated at Company level and impairment tested for goodwill at Company level. Impairment losses are charged to the statement of comprehensive income in the period in which they are identified and are allocated first to goodwill then to carrying amounts of other assets at the CGU level.

Reversals of impairment

An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed when there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Property disposals

Disposals of properties and any resultant gain or loss on disposal are recognised in the statement of comprehensive income once all conditions of the sale contract become unconditional.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are related to the property leases and are depreciated on a straight-line basis over the lease term.

Business combinations

The purchase of a company or bowling centre, being a group of inputs and processes capable of generating profits, is accounted for as a business combination. Business combinations are accounted for using the acquisition method of accounting. The consideration for a business combination is measured at fair value on the date of acquisition with the assets acquired and liabilities incurred measured at fair value on exchange. Goodwill is recognised as the surplus of the consideration over the fair value of the net assets acquired and is accounted for as per the accounting policy on goodwill. Transaction costs that the Company incurs in connection with business combinations are expensed as incurred. Management judgements are made in the measurement of fair values to the net assets acquired in a business combination, in particular the customer lists, inventories and property, plant and equipment acquired.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated as cost of purchase on a first in, first out basis based on normal levels of activity. Net realisable value is based on estimated selling price, less further costs expected to be incurred to completion and disposal which is the same method used to fair value the inventory on a business combination. Provision is made for obsolete, slow-moving or defective items where appropriate.

Financial instruments

Financial assets and liabilities are recognised in the Company's balance sheet when the Company becomes party to the contractual rights and obligations of the instrument.

Initial recognition and subsequent measurement

Financial assets

All financial assets are initially recognised at fair value less transaction costs and then can be subsequently measured at amortised cost or fair value.

Trade and other receivables

Trade receivables are measured at fair value at initial recognition, do not carry any interest and are subsequently measured at amortised cost using the effective interest rate method. Other receivables are subsequently measured at amortised cost using the effective interest rate method and any interest income is recognised in profit and loss. Appropriate allowances for estimated irrecoverable amounts are recognised in the statement of comprehensive income. Allowances for doubtful debts are recognised based on management's expectation of losses, without regard to whether an impairment trigger has occurred or not (an 'expected credit loss' model under IFRS 9).

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with an original maturity of three months or less. Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents.

Financial liabilities and equity

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently held at amortised cost using the effective interest rate method.

Derecognition of financial assets and financial liabilities

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

Impairment of financial assets

The Company recognises loss allowances for expected credit losses ('ECLs') on financial assets measured at amortised cost. These are always measured at an amount equal to 12 months ECL. The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk. When determining whether there is default or the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both qualitative and quantitative information and analysis, based on the Company's historical experience and informed credit assessment and forward-looking information. This same information is used to determine if financial instruments have low credit risk upon initial recognition. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery.

Pension costs

The Company operates a defined contribution pension plan. The Company pays contributions to privately administered pension insurance plans on a mandatory basis. The Company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as the result of a past event and it is both probable that an outflow of resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Where the Company expects to be reimbursed for an outflow of resources associated with a provision, for example under an insurance contract, the expected reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are calculated by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the unwinding of the discount over time is charged to finance costs in the statement of comprehensive income.

Tax

The tax charge comprises current tax payable and deferred tax. The current tax charge represents an estimate of the tax payable in respect of the Company's taxable profits and is based on an interpretation of existing tax laws.

As required by IAS 12 (revised), the Company provides deferred income tax using the balance sheet liability method on all temporary differences between the tax bases of assets and liabilities and their carrying values at the balance sheet date. Deferred income tax assets and liabilities so recognised are determined using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date and are based on the expected manner of realisation or settlement of the carrying amount of the assets or liabilities.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax is not recognised in respect of the initial recognition

of an asset or liability acquired in a transaction which is not a business combination and at the time of the transaction does not affect accounting or taxable profits.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Share capital

Ordinary shares are classified as equity. Share premium arises on the excess between the fair value of the shares issued and the par value of the shares issued and the existing shares issued have none. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, against share premium.

Dividends

Dividends are recognised as distributions to equity holders when the right to receive payment is established. The Company does not declare interim dividends. Dividends paid are limited to amounts distributed between companies within the Group and are made only when required to manage Group liquidity and capital allocation. Such intra-group dividends are recognised as a reduction in retained earnings in the Company's financial statements and are eliminated on consolidation. No liability for a dividend is recognised before it is formally approved.

1 Revenue

The company has only one segment as all of its activity comprises bowling operations conducted through 57 (2024: 53) bowling centres located in the UK.

	52 weeks ended 28 December 2025	52 weeks ended 29 December 2024
	£000	£000
Segment revenue – external	**146,484**	142,032
Bowling	**59,922**	58,545
Food and drink	**40,822**	41,453
Machines and amusements	**38,448**	36,309
Other	7,292	5,725

Other revenue consists mainly of pool and machine sales, which represent ancillary trading activity undertaken alongside the company's principal operations.

2 Staff costs and numbers

	52 weeks ended 28 December 2025	52 weeks ended 29 December 2024
	£000	£000
Wages and salaries	**31,892**	29,157
Social security costs	**2,870**	1,893
Other pension costs	**780**	487
	35,542	31,537

Staff costs included within cost of sales is £32,063k (2024: £27,839k). The balance of staff costs are recorded as an administrative expense and reflects the nature of the role performed by each employee.

Directors' remuneration

Details of directors' remuneration £000	Salary	Bonus/one off payment	Benefits	Equity settled share based payment	**52 weeks ended 28 December 2025**	52 weeks ended 29 December 2024
Total	**439**	**111**	**18**	**619**	1,187	485

The directors' remuneration include remuneration in respect of highest paid director of £458,034 and company pension contributions to defined contribution schemes of £8,874. The number of directors for whom retirement benefits are accruing under defined contribution schemes amounted to 2.

The monthly average number of persons employed (including executive directors) during the period, analysed by category, was as follows:

	52 weeks ended 28 December 2025	52 weeks ended 29 December 2024
Weighted average number of employees:		
Staff	**2,020**	1,908
Administration	**84**	77
Unit management	**239**	203
	2,343	2,188

3 Finance costs

	52 weeks ended 28 December 2025	52 weeks ended 29 December 2024
	£000	£000
Lease interest	9,398	8,791
Other	1,070	748
Total finance costs	10,468	9,539

4 Profit before taxation

The following items have been included in arriving at profit before taxation:

	52 weeks ended 28 December 2025	52 weeks ended 29 December 2024
	£000	£000
Staff costs (see note 2)	35,542	31,537
Consumables charged to cost of sales	4,449	3,485
Depreciation of property, plant and equipment (note 8)	13,025	9,079
Depreciation of right of use assets (note 9)	11,435	13,287
Amortisation of intangible assets (note 6)	84	95
Loss on disposal of assets	188	157
Operating lease rental payable – property	279	265
Exceptional costs*	1,106	52
Repairs on property, plant and equipment	4,816	4,121
Auditors' remuneration:		
Audit of company financial statements	234	200

*Exceptional costs of £1,106k (2024: £52k) consist of share based payment charges related to the MIP, see (note 18), redundancy fees, recruitment fees, share based payment legal fees, contract settlement costs and costs incurred relating to the acquisitions.

Other non-audit services provided for the 52-week period ended 28 December 2025 amounted to £2,250 (52 weeks ended 29 December 2024: £2,250).

5 Tax on profit

Recognised in the statement of comprehensive income:

	52 weeks ended 28 December 2025 £000	52 weeks ended 29 December 2024 £000
Current taxation:		
Tax on profit for the period	40	(2,186)
Deferred tax:		
Origination and reversal of temporary differences	3,475	4,947
Adjustment in respect of prior years	1,092	-
Total taxation charge recognised in the statement of comprehensive income (note 16)	4,607	2,761

The tax on the company's profit before taxation differs (2024: differs) from the theoretical amount that would arise using the standard rate of tax in the UK of 25% (2024: 25%). The differences are explained overleaf.

	52 weeks ended 28 December 2025 £000	52 weeks ended 29 December 2024 £000
Profit before taxation	19,006	27,447
Tax using the UK corporation tax rate of 25% (2024: 25%)	4,752	6,862
Income not taxable for tax purposes	(2,955)	(1,834)
Permanent differences	233	(36)
PPE timing differences	4,240	2,468
Adjustment in respect of prior years	124	(527)
Group relief	(1,787)	(4,172)
Total taxation charge recognised in the income statement (note 16)	4,607	2,761

6 Goodwill and intangible assets

Cost	Fair valued intangibles on acquisition £000	Goodwill £000	Software £000	Total £000
At 31 December 2023	840	57,038	4,202	62,080
Additions	-	-	158	158
At 29 December 2024	**840**	**57,038**	**4,360**	**62,238**

At 28 December 2025	**840**	**57,038**	**5,885**	**63,763**
Accumulated amortisation and impairment				
At 31 December 2023	840	32,649	4,161	37,650
Charge for the period – amortisation	-	-	95	95
At 29 December 2024	**840**	**32,649**	**4,256**	**37,745**
Charge for the period – amortisation	**-**	**-**	**84**	**84**
At 28 December 2025	**840**	**32,649**	**4,340**	**37,829**
Net book value				
At 28 December 2025	**-**	**24,389**	**1,545**	**25,934**
At 29 December 2024	-	24,389	104	24,493
At 31 December 2023	-	24,389	41	24,430

Impairment testing is carried out at the cash-generating unit ('CGU') level on an annual basis. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. Each individual centre is considered to be a CGU. However, for the purposes of testing goodwill for impairment, it is acceptable under IAS 36 to group CGUs, in order to reflect the level at which goodwill is monitored by management. The whole Company is considered to be one group of CGUs, for the purposes of goodwill impairment testing, on the basis of the level at which goodwill is monitored by management and historical allocation of goodwill upon acquisition. The fair valued intangibles on acquisition is for the lease acquired at the Worcester centre which was significantly below market value and was fair valued and accounted for on acquisition in 2016 has been fully amortised as the lease was surrendered and new lease agreed. The amortisation charged on the above intangible assets is included in other administrative expenses in the statement of comprehensive income. Bank borrowings in TPE Finance Limited (fellow subsidiary) for the value of £140m (2024: £140m) are secured on intangible assets.

The calculation of value in use is based on pre-tax cash flow projections from the financial forecasts approved by the Board covering a three-year period. Cash flows beyond this three-year period are extrapolated over the life of the lease relating to that centre

The key assumptions of the value in use calculation are:

	28 December 2025	29 December 2024
Period on which management approved forecasts are based	**3 years**	3 years
Growth rate applied beyond approved forecast period	**2%**	2%
Pre-tax discount rate	**14.10%**	14.50%

The pre-tax discount rate applied to the cash flow projections approximates the Group's weighted average cost of capital ('WACC'), adjusted only to reflect the way in which the market would assess the specific risks associated with the estimated cash flows of the bowling businesses and to exclude any risks that are not relevant to estimated cash flows of the bowling businesses, or for which they have already been adjusted. This pre-tax discount rate has been benchmarked against the discount rates applied by other companies in the leisure sector.

For the calculation of fair value less cost to sell, management has assumed that each Tenpin Limited business could be sold for a multiple of 7x EBITDA (2024: 7x EBITDA) with the multiple to reflect the actual multiple used in the acquisition of the Company in January 2024. The depreciation and impairment charges and reversal are recognised in administrative expenses in the statement of comprehensive income. Bank borrowings are secured on property, plant and equipment for the value of £140m (2024: £140m) as at the period end.

7 *Investments*

	Subsidiaries £000
At 31 December 2023	2,814
(Disposals)/acquisition	-
At 29 December 2024	2,814
At 28 December 2025	**2,814**

Tenpin Limited's investment value relates to the one site in Castleford that still remains under Tenpin Five Limited.

The company has investments in the following subsidiary undertakings	Country of *registration*	Country of incorporation and *operation*	*Principal activity*	Percentage of ordinary *shares held*
Companies owned directly by Tenpin Limited				
Tenpin (Sunderland) Limited	England & Wales	Great Britain	Dormant	100%
Tenpin (Halifax) Limited	England & Wales	Great Britain	Dormant	100%
Tenpin One Limited	England & Wales	Great Britain	Dormant	100%
Tenpin Five Limited	England & Wales	Great Britain	Operating	100%
Quattroleisure Limited	England & Wales	Great Britain	Dormant	100%

Subsidiary undertakings

The directors believe that the carrying value of the investments is supported by their underlying net assets of the business and the future profits that will be generated by the companies. The registered address for all subsidiaries is Aragon House, Cranfield Technology Park, Cranfield, Bedford, England, MK43 0EQ.

8 Property, plant and equipment

	Freehold Land and Buildings £000	Fixed Furnishings £000	Amusement machines £000	Fixtures, fittings and equipment £000	Total £000

At 28 December 2025	**4,820**	**8,322**	**7,525**	**86,662**	**107,329**
At 29 December 2024	4,892	8,068	1,098	77,753	91,811
At 31 December 2023	4,964	7,282	879	65,503	78,628

Included in the additions for fixtures & fittings is construction in progress of £2.8m (2024: £4.5m) for two sites being built and three refurbishments, which are not open for use and as such these additions have not started to incur depreciation. Property, plant and equipment and right-of-use assets are reviewed for indicators of impairment on an annual basis. Where an indicator of impairment is identified, the recoverable amount of each CGU (each of the 57 (2024: 53) centres open as at the period end has been treated as a CGU) and has been calculated as the higher of its value in use and its fair value less cost to sell.

	344,478	324,627	**-**	7,255	**344,478**	331,882
Future finance charges on Leases	**(129,363)**	(111,835)	**-**	(602)	**(129,363)**	(112,437)
Present value of finance lease liabilities	**215,115**	212,792	**-**	6,653	**215,115**	219,445

Leases are in place for 56 (2024: 52) properties at a value of £215,115k (2024: £212,792k), amusement machines from Bandai Namco Europe Limited with a value of £nil (2024: £6,653k) and coffee machines with a value of £nil (2024: £nil).

Purchase of Namco machines

In February 2025, the Group purchased all gaming machines previously operated under finance leases for a total of £9.0m, paid in 2 instalments with £5.0m paid in February 2025 and £4.0m paid in February 2026. The leases for these machines were therefore extinguished and de-recognised in February 2025, with the net book value of the Right of Use assets being transferred at this time into Property, Plant and Equipment.

15 Trade and other payables

	28 December 2025	29 December 2024
	£000	£000
Trade payables	**10,761**	5,613
Amounts owed to related parties	**9,988**	7,063
Social security and other taxes	**4,804**	1,278
Other payables	**2,310**	4,502
Accruals	**5,766**	5,856
	33,629	24,312

16 Deferred tax assets/(liabilities)

Deferred tax assets and liabilities are attributable to the following:

	Assets		Liabilities		Net	
	28 December 2025 £000	29 December 2024 £000	**28 December 2025 £000**	29 December 2024 £000	**28 December 2025 £000**	29 December 2024 £000
Property, plant and equipment	-	-	**(13,753)**	(9,513)	**(13,753)**	(9,513)
Fair value on business combination	-	-	**(30)**	(30)	**(30)**	(30)
Other	**2,356**	2,683	-	-	**2,356**	2,683
Total	**2,356**	2,683	**(13,783)**	(9,543)	**(11,427)**	(6,860)

A deferred tax asset of £2,356k (2024: £2,683k) has been recognised on the impairment loss that was accounted for on adoption of IFRS 16 as the impairment is expected to be utilised against future taxable profits generated by the Company. From 1 April 2023 the corporation tax rate has increased to 25%. The deferred tax balances have been calculated taking into account this change and how they are expected to unwind.

Movement in deferred tax during the 52 weeks ended 28 December 2025:

	29 December 2024 £000	Recognised in income statement £000	Tax paid £000	**28 December 2025 £000**
Capital allowances	(9,513)	(4,240)	-	**(13,753)**

Total taxation	**(605)**	(2,761)	(427)	**(3,793)**

The company has carry forward tax losses of £nil (2024: £nil).

17 Dividends paid and proposed

The following dividends were declared. No dividends were liable as at the balance sheet date.

	52 weeks ended 28 December 2025 £000	52 weeks ended 29 December 2024 £000
The following dividends were declared and paid by the company:		
Interim dividend declared and paid	17,458	15,940

18 Share based payments

Management Incentive Plan (MIP)

During 2025, the Group established a Management Incentive Plan (MIP) under which certain members of management, were granted a separate class of B Shares in TCF TPE Limited. These B Shares provide management with a participation in future equity value growth generated between the Transaction Date and a future Exit event, defined as either a sale of a majority stake in TCF TPE Limited or an Initial Public Offering ('IPO').

The director with a service contract with the company, is included in the MIP and so as the company receives employee services in exchange for equity instruments issued by TCF TPE Limited, and the company has no obligation to settle the awards in cash, the arrangement is accounted for as an equity-settled share-based payment under IFRS 2. In accordance with which, the company recognises the expense even though TCF TPE Limited issues the shares. The awards include non-market performance conditions (continued service to Exit or the fifth anniversary of grant) and no market-related conditions.

The grant-date fair value of the B Shares was estimated using a Black–Scholes option-pricing model. Inputs included enterprise value, exit value, participation percentages, expected volatility, risk-free rates, expected time to Exit, and a discount for lack of marketability ('DLOM').

The total grant-date fair value of the awards is recognised over the vesting period, being the expected time to Exit. The expense is recorded within administrative expenses, with a corresponding credit to the other reserves. The number of awards expected to vest is reassessed at each reporting date.

The number of share awards and the value of the expense recognised within the company is outlined in the table below.

Management Incentive Plan	Award	No. of Share Awards	Fair Value per share	Fair value expense recognised	Other Reserves Balance
			£	£000	£000
Tenpin Limited	50% Fixed vesting	27,566	73.55	364	364
Tenpin Limited	50% Vest on exit	27,566	51.55	256	256
28 December 2025		**55,132**	**62.55**	**620**	**620**

19 *Ultimate parent undertaking*

The company is a wholly-owned subsidiary of TEG Holdings Limited. The ultimate parent company and controlling party is Trive Capital Management LLC but the financial statements will be consolidated at the TPE Parent Limited level, as it is the smallest and largest group to consolidate these financial statements. TPE Parent Limited is a company incorporated in England and Wales and whose consolidated financial statements are available at Aragon House, University Way, Cranfield Technology Park, Bedford, England, MK43 0EQ. TPE Parent Limited is the only company to prepare consolidated financial statements.

20 Related party transactions

The company has taken advantage of the exemptions granted by paragraph 3(c) of IAS 24, Related Party Disclosures, not to disclose transactions with TPE Parent Limited companies and interests of the Group who are related parties.

21 Post balance sheet events

New site leases

At the time of signing the Financial Statements, the company had entered into leases for these sites: Blackpool - £292,020 annual rent, 25-year term; Wakefield - £295,000 annual rent, 25-year term; and Peterborough - £86,000 annual rent, 25-year term.
