BGP.UK.COM AGAINST THE WIREFRAMES

Every page of the live site set beside the December wireframe it was built from, after the layouts were rebuilt to the drawings on 16 October.

PREPARED FOR EMMY AND CHARLOTTE · 16 OCTOBER 2026 · CAPTURES TAKEN FROM WWW.BGP.UK.COM AFTER THE REBUILD

Earlier this week the site had drifted from the wireframes. Intros had been centred, statements had moved off the photos, the grey bands had gone and the headings had lost their rules. Woody caught it from the side-by-sides. The layouts have now been rebuilt page by page to the slides, and each page below is shown beside its drawing so the match can be judged by eye rather than taken on trust.

Type and colour follow the August brand guidelines rather than the wireframe placeholders: Century Gothic headlines in upper case, Bordeaux, Nectar, Stone and the Feather ground. The wireframes were typeset in a stand-in serif, so the lettering looks different even where the layout is the same.

Six things are kept deliberately where the slides draw something else, and each is marked “Kept” on its page. Everything else marked “Content” is a slot that is built and empty: a photo, a quote or a line of copy that has not been supplied yet.

REBUILT TO THE SLIDES	Home, Leasing, Listing page, Estate and sector pages, Investment, Investment case study, Brand Representation, Lease Advisory, Consultancy, News, Article, Team hero and nav. Layout, section order and section treatment follow the drawings.

KEPT ON PURPOSE	• "We are bgp" intro and the Landsec testimonial on the home page (approved copy). • "Where we act" sector tiles on Leasing (route to the sector pages). • Page numbers rather than "More listings" on Leasing (Woody, 15 October). • "What we offer" on Brand Representation (Harry, 12 October). • One page per sector rather than per estate. • Team as a grouped list rather than an A to Z grid (Woody and Charlotte).
WAITING ON CONTENT	• Team group photo and Harriette's headshot. • Frankie Shop, Davies Street photo. • Cat Jenkins' real quote (lorem ipsum showing on Consultancy). • Three Lease Advisory case study summaries (one repeated sentence today). • Client quotes for the investment case studies. • Case studies for The City and High Streets. • Nearest stations and transport, once the leasing tracker has the field. • Bios for everyone.
